CASTRO'S COUP A SENSATION.

Gunboat Sent to Venezuela by State Department.

Gomez Exhorts His Country to Repel Invader.

Rebels Have Been Active in Several Localities.

[BY A. P. NIGHT WIRE TO THE TIMES.]

WASHINGTON, Aug. 1.—News of the appearance in Venezuela of ex-President Cipriano Castro, after his five-year exile, caused something of a sensation at the State Department today. For five years the department has been keeping Castro under surveillance to prevent him from returning to Venezuela, which country has been enjoying a period of untroubled prosperity and quiet since his retirement.

Department officials still supposed the exile was living quietly in the Canary Islands until a cablegram came today announcing his re-entrance into the country of his birth, at the head of an armed force, while various uprisings in his behalf were reported from different points in Venezuela. He was said to be at Coro.

From the legation at Caracas the State Department was informed of uprisings in the State of Tachira, at Coro and Maracaibo.

The United States government is represented in Venezuela, at present only by a legation clerk, Richard J. Biggs.

Minister Northcott has resigned and quit his post, and Secretary Caffery now is in Washington attached to the Latin American bureau. It was announced that a secretary would be rushed to Caracas immediately, to be followed by a regularly accredited minister as soon as one could be appointed.

GUNBOAT ORDERED THERE.

The State Department called today upon the Navy Department for a warship to look after American interests in Venezuela the alert, the gunboat Des Moines, now at Brunswick, Ga., was ordered to make the cruise.

It is calculated that the gunboat can make the run to La Guaira, the nearest point to Caracas, in about six days.

Gen. Jose Manuel Hernandez, Venezuelan Nationalist Liberal leader, now a political exile, arrived in Washington today, and called acting Secretary Roosevelt of the navy. His call was unofficial, and after a brief visit to the State Department he went to the State Department to pay his respects to Secretary Bryan.

The Venezuelan exile, popularly known as "El Mocho," is opposed both to the present revolution, and to President Gomez, who is a dictator. He declared his present attitude was one of observation and that he believed both Gomez and Castro were destined to political retirement.

Castro, whose whereabouts hitherto have been indefinite, has landed at La Guaira, the port of Venezuela. This information was called to the State Department today by American Consul General W. C. Carter, at La Guaira, the port of Caracas.

UNITE AGAINST CASTRO. GOMEZ MADE DICTATOR.

[BY CABLE AND A. P. TO THE TIMES.]

CASTRO, the Venezuelan exile, is the cause of the outbreak of revolution in Venezuela and the invasion of the country by forces under the leadership of former President Cipriano Castro, the Federal Council today constituted a committee to study the situation.

The committee, headed by President Juan Vicente Gomez, to assume dictatorial powers until the movement is crushed. President Gomez on Wednesday sent the following telegram to the Governors of all the Venezuelan States:

"I am, Cipriano Castro, impelled by ambition and the cause for power, has provoked a revolution in this republic by ordering his partisans to arm themselves against the constitution and the government."

"Already rebel forces in several localities have disturbed the public order."

"It is necessary for you to be alert and act rapidly and energetically in assisting the government to crush the rebellion."

"The peace of the country, which the Venezuelan people are obliged to maintain, is at stake. It is the duty of every citizen to support the government and to resist the rebellion."

"The peace of the country, which the Venezuelan people are obliged to maintain, is at stake. It is the duty of every citizen to support the government and to resist the rebellion."

"The peace of the country, which the Venezuelan people are obliged to maintain, is at stake. It is the duty of every citizen to support the government and

BEAVERS PARADE AROUND BASES IN FIRST INNING

Long Beach.
"SIMP" AND WAYNE WIN.

Beat Bundy and Dawson in Four-Set Match.

Ken Newell Beats Freeman in Singles.

Finals in All Events to Be Played Today.

BY W. M. HENRY.

Four-sets of brilliant, slashing tennis were sufficient for Simpson Sinabugh and Claude Wayne to demonstrate that when it came to playing doubles they had it on Tom Bundy and Ward Dawson about seven-teen ways.

"Simp" Sinabugh, with the aid of a glass of ice water every now and then, was the star attraction. Tearing around the court and placing his terrific smashes in the uninhabited corners of his opponent's court, his dashing play elicited tremendous bursts of applause from the crowded gallery.

The first set of the match, which was for the finals in the open doubles, went to Bundy and Dawson by a 4-1 score. Sinabugh and Wayne had not gotten warmed up and Bundy and Dawson were playing very good tennis.

"SIMP" STARS.

In the second set Sinabugh began to smash to the corner and Wayne became much more steady with the result that they won it, 6-4. Wayne ending up the set with a terrific backhand drive into the corner.

The third set was the big set and by breaking into Dawson's service twice Sinabugh and Wayne won, 7-5. The set ended with Dawson repeating on his back in the corner of the court. He had run backwards and returned a high lob and tripped and fell. Wayne returned the ball to Bundy who drove into the net.

In the last set Wayne and Sinabugh went wild and played sensational tennis from start to finish. Bundy was only able to stop them on his service game. Sinabugh got back at Bundy for his defeat in the singles by ending up one of his games with a service ace on Tom's.

The challenge match between Wayne and Sinabugh and Duncan and Browne today promises to be one of the hardest-fought battles of the year.

A big surprise came in the men's singles when Kenny Newell, continuing his sensational streak, disposed of Lew Freeman in straight sets, 6-2, 7-5.

The second set was a thriller. Freeman had Newell 5-1, and the pink-haired barrister-to-be pulled out of the hole by winning six straight games.

Newell had his service working like clockwork and his well-placed drives had Freeman running all over the court. Newell will meet Tom Bundy in the semi-finals today.

DAVIS SURPRISES.

Ward Dawson, ex-champion of Southern California, was put out of the running by Willis Davis of San Francisco, who played a spectacular game. The northerner has a great service and plays his service games almost to perfection, losing only one of them in the match.

Davis's service is very speedy with a big hop and is almost impossible to drive. He would rush up to the net and smash Dawson's weak returns to the corners of the court. Dawson's play was slightly off color while Davis was in top form.

The first set was an awful thing, going to Davis at 8-6, at a terrific pace. With the score at 4-3, Davis broke into Dawson's service and it looked as though the set was on ice, but Dawson returned the compliment by breaking into Davis's service for the first and only time.

The second set went to Davis in practically the same way as the first except that Dawson failed to break into the Davis service when the score was 5-3 and as a result lost the match. Davis meets Ketchum in the semi-finals today.

MISS SCOTT WINS.

The ladies' singles finals was practically an exact repetition of the finals of the same event last year. Miss Scott and Mrs. Suckroff were the contestants and Miss Scott won, the only difference being that she had a much harder job this time.

The first set went to Miss Scott, 7-5, after a great struggle. Mrs. Suckroff seemed to be placing her drives a little better than Miss Scott, but the latter's steadiness and court-covering ability won for her.

Mrs. Suckroff started off with a rush in the second set and soon had her opponent, 5-2. At this point Miss Scott took a brace and ran five straight games by first-class placing and driving. She will meet Mrs. Bruce in the challenge round today.

JUNIORS PLAY.

The junior singles apparently lie between H. V. D. Johns and Allyn Barber. Each of these youngsters has a semi-final to play off, but according to the dope should win and a battle royal is promised when they get together.

In the mixed doubles Miss Florence Burton and Cliff Herd continue to show the best form. Yesterday they defeated Miss Marjorie Tufts and Emory Rogers in a hard fought match, 3-4, 6-1, 1-1, and they are the favorites for the championship.

All of the finals and challenge matches are to be played today and from the class of tennis shown so far, the matches should surpass those of

(Continued on Fourth Page.)

Two of the Angel wrecks

After the disaster of yesterday, Johnson collided with Goodwin and was carried out. Jackson was cruelly mauled by the Beaver stick artists.

Willie's Former Manager.

IF WOLGAST BEHAVES HE CAN BEAT RITCHIE—NOLAN.

IF WOLGAST will spend three months in the mountains and let tobacco alone as can beat Ritchie. If he tries to live in the city and trains in his usual careless way, Ad will be beaten.

This is the way the prospective battle between Ritchie and Wolgast is used up by Billie Nolan, former manager of Ritchie, in a letter to the sporting editor of The Times.

He says: "I believe under very stringent conditions, that is, in the way of preparation, Wolgast could beat the present title-holder. However, Ad would require a lot of hard work and would take at least three months of solitary work off in the mountains, not at some resort where there are too many good fellows.

"Believe me, I have hard work and confining. This is the only way to attain results. Ad seems to be a good little fellow and I would like to see him retrieve his lost laurels, but he must realize it is about time for him to forget Spring street, also Market street here.

He has made many promises, but has not done anything. The public is about beginning to number him as a dead one; it is up to him to decide now as to his future, and actions alone will prove his intentions.

"Too bad Ad made that bluff of betting \$15,000. He did that once before. No manager or fighter should do or make any statements of that character unless he can make them good. The public watches those things too closely. If called and you fail to make good, then you are a pitiful object.

"There is one thing that I always avoided. The public expects a fight to be never shown up. I knew my opponents. If Wolgast can fight as well as he did Frankenstein Day, with a strict preparation he can win to a certainty from Ritchie. That much, in the language of the ring, is a cinch.

"The first thing—ere his hands. No mechanic can do good work without good tools.

"However, Ritchie's left hand, or rather wrist, will always make him a cripple.

"Wolgast is the one man who will always trouble Ritchie the most. 'All champions have had certain

WORST DEFEAT OF SEASON HANDED TO ANGELIC HOST.

Rainstorm of Beaver Runs in the First Inning Drowns the Hopes of Angels' Followers—Ten Ducks in a Row Trot Over the Plate—Ernie Johnson Knocked Out in Collision With Goodwin.

BY OWEN R. BIRD.

THE FLOOD, the fall of Babylon, the capitulation of Troy, the sack of Rome, the eve of St. Bartholomew, the retreat from Moscow and the field of Waterloo, all rolled into one would hardly give an adequate idea of the ruin, riot, disaster, annihilation, humiliation and utter rout suffered by the disorganized aggregation of ball players supposed to be representing the city of Los Angeles in the Pacific Coast League, at the hands of Walt McCredie's Portland Beavers yesterday. The result of the game will probably go down as one of the most crushing defeat in the history of western baseball.

Everything happened to the Angels that could possibly happen to a beaten baseball team. The score was 16 to 6, but could have been as easily 32 to 6. Until yesterday nobody had even accused McCredie of being generous, but after the third inning he really called his war dogs off and allowed the Angels a breath of air, otherwise the team would have been absolutely wiped off the map.

AWFUL CARNAGE.

Some inkling can be gained of the terrible carnage by citing what happened in the first inning, when ten runs were scored. Ernie Johnson was carried off the field badly wounded and unconscious, leaving the rest of the club demoralized. Thirteen Portland players walked to the plate in this inning and ten of them made the complete circuit. Two pitchers were mauled almost beyond recognition, the Angel line-up suffered a shake-up, and the fans were singing, "there is a land that is hotter than this, and that's where the Angels have gone."

In view of the fact that the first inning of the game yesterday will probably be a mile-stone in the baseball path for years to come, it would only be fit and right that a complete account be registered herewith.

CHECH GETS HIS.

Charlie Chech strolled out on the hill to do the heaving honors. He was given a hand and gravely started to work on the Beavers. In ten minutes his composure was gone and he was a badly rattled young man. Chadbourn, the first man up, walked; then Doane fanned and we settled back more assured, but Rodgers also walked. Bill Lindway was next up and with two on it was easy to see that the Seraphs were beginning to get into a groove. Bill Ritchie, who had been out for four rounds, was called around for a count of three and two, then Charlie grooved one and Bill swatted it on top, making a hard bouncer between Goodwin and Johnson.

Both boys started after the ball. Ernie had to come toward third, while Goodwin had to go toward first, and it looked as though Goodwin could have made the play a little faster for years to come, it would only be fit and right that a complete account be registered herewith.

ERNIE GETS K. O.

After a few convulsive jerks Ernie lay flat on his back. At once the players rushed to him and began trying to revive him. Then the umpire called for a doctor and this time obtained from the stand. They worked over the prone player in feverish haste to no avail. Finally four stalwart Portland players picked him up and carried him out to the clubhouse. As they carried him off the field, Johnson began to mumble, "I can play ball, you know it was mine."

After Scotty Finley got at him he recovered and was able to return to the grand stand and watch the progress of the landslide. He was hit in the solar plexus and suffered a complete knockout, but will likely be right enough to get into the game today.

After this disaster, Dillon went to first and Ivan Howard was shoved to short. Howard had been playing first in place of Moore, who was taken with some sort of illness before the game.

CONGESTED BAGS. You will please remember that the bases were loaded at this time and that Kores was at bat, and that there was one out.

Kores lifted a choppy fly to Aris Krueger in right, which was caught, but Art made a terrible heave to the plate, when standing only a few feet back of Patsy Chadbourn scored, in the play with the utmost ease, when he should have been nailed at the plate by a good margin. This was only a sample of the raw work that was pulled during the game.

After Kores's sacrifice fly, Rogers moved to third, while Lindway, who held at first, with two out, it looked as though maybe Chech would pull out of the hole with only one run scored. That Speas singled to center, scoring Rodgers, and putting Lindway on second. Then Ty Lober drew his first walk of the afternoon, and we might say here and now that this young man spent the afternoon drawing bases on balls. Either they were afraid of him or he had the local pitchers bewitched, and I think that it was a little of both.

LOBER WALKS. Lober's free pass filled the bases again. Dillon then greatly led Chech from the mound. Jackson was flagged from the derrick crew and came bustling in. Along came Gus Fisher with his Oregon pine tree bat and smashed a screaming triple to right field. There was a grand parade as Lindway, Speas and Lober loped over the much-abused rubber.

But wait, this is only a portion of the work. After that Big Bill James came next and he lifted the pill into an empty spot in left field for a strike, scoring Fisher. This so perturbed Jackson that he slanted one on Chadbourn's plate, this being Chadbourn's second trip to the plate in the inning without a single credited time at bat.

Doane dumped one down the base line toward third and beat it in the initial cushion, thereby filling the bases. James could have scored on the play, but Bill is not given to sprinting.

FULL AGAIN. We now have the bases filled again and Rodgers up at bat for the second time in the inning.

"Shut your eyes, Bill, and hit her with you, she goes further," said Ernie Higginbotham, as Bill was looking over. He must have done it for on the third pitched ball he leaned against the sphere and there was a stream of white between right and

ing to revive him. Then the umpire called for a doctor and this time obtained from the stand. They worked over the prone player in feverish haste to no avail. (Continued on Fourth Page.)

SARCASTIC FAN WHO RODE THE HUMILIATED ANGELS.

WHILE Portland was pouring humiliation upon Los Angeles, a leather-junged fan became possessed of an inspiration to ride Uncle Frank Dillon, the Angel chieftain, who was playing first base in person.

Dillon paid no visible attention to the sarcasm while he was playing, but every time he came back to the bench he would give a murderous look up into the grand stand.

The rooster was a hatchet-faced young man with beady black eyes and an open cavern for a mouth. He began with a few remarks about the pitcher.

"Don't take him out, Cap," he expostulated. "They have only made ten runs off this inning. That ain't much. They can't handle the figures on the score board, but it ain't so much."

Presently Lober came to bat—an embarrassing circumstance for all inoning man with beady eyes and an open cavern for a mouth. He began with a few remarks about the pitcher.

"Don't take him out, Cap," he expostulated. "They have only made ten runs off this inning. That ain't much. They can't handle the figures on the score board, but it ain't so much."

Presently Lober came to bat—an embarrassing circumstance for all inoning man with beady eyes and an open cavern for a mouth. He began with a few remarks about the pitcher.

"Don't take him out, Cap," he expostulated. "They have only made ten runs off this inning. That ain't much. They can't handle the figures on the score board, but it ain't so much."

Just before Jackson ceased to walkable and was recalled to the bench, Chadbourn came to bat. The pitcher, so rattled he knew not which way to turn, looked at the bat with despair.

"It's all right," called the fan reassuringly. "Don't worry about him. That's Chadbourn. He ain't much. He only got two hits this inning."

In the next inning Portland slammed out a few more runs, and Old Friend Fan howled out cheerily. "Don't get worried, Cap. It can't last forever. Portland ain't invented perpetual motion. It's got to stop. I don't see how, myself; but they'll have to stop on account of darkness after a while."

It got on all the Angel's nerves so that Wotell, after running to first, got the extraordinary idea that he ain't much. The ball was thrown second to head off a runner, but Wotell was so grieved at the proceedings that he seemed to think he was out by mere pressure of circumstances and hands. Dillon walked back to the bench, started to walk back to the bench.

"Don't wake the child," yelled the fan. "He needs rest. It's been a nervous day for him. Don't wake him."

Finally, when Dillon went to bat and knocked a pop fly into the first baseman's hands, the fan cried out sadly, "Cap, you'd better sell yourself to Fresno."

Dillon tossed his bat aside with a forced air of gravity and the fan yelled, "That's right, Cap. Sell it. You can come back here under the bench and take it out on one of your players, like you alius do. They're slaves. That's what they're for."

That was one that hurt; you could see it by Dillon's face that the shot had gone home and he shot up into the grand stand a look that showed the fan for a while.

ARELLANES HAS A FENCE BALL.

Tigers Get Three Home Runs in Five Innings.

Dutch Reuther Is Rushed to the Rescue.

Tigers Now Even With Sox on the Series.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SACRAMENTO, Aug. 1.—(Exclusive Dispatch.) Frank Arellanes had the fence ball today. He fed three of the big ones to Hops, Brashers and Kane, and injected a rib tickler to Dick Dayless in front of one of the circuit tours. Four Venice runs were the net result.
Spider Baum was on the mound for the Tigers, and when Brother Charley is right four runs by his teammates are generally enough to win. And Brother Charley was right but to make double sure Hops, Brashers and Kane, and injected a rib tickler to Dick Dayless in front of one of the circuit tours. Four Venice runs were the net result.
Spider Baum was on the mound for the Tigers, and when Brother Charley is right four runs by his teammates are generally enough to win. And Brother Charley was right but to make double sure Hops, Brashers and Kane, and injected a rib tickler to Dick Dayless in front of one of the circuit tours. Four Venice runs were the net result.

Reuther, the St. Ignace boy, who has won big money, Traylor League, and Los Angeles Coast League uniforms in the last five months, was sent to the slab for the last four innings, and showed enough form to justify his selection for a regular turn on the mound among the Wolves slayers.

With two men in the fifth Johnny Kane caught the fever and leaped against one which landed out close to the left center field fence, and Kane easily completed the circuit for a fourth run, applying the plate before the Wolf's Star relay had propelled the ball as far as the pitcher's box.
The next inning found Dutch Reuther on the slab, and for two days the Tigers went out in order, but a ball being hit out of the infield. In the eighth Kane slugged to right, looked bound on a wild pitch, went to third on an out by Dayless, and scored when Stark booted Brashers's way grounder. In the ninth Litchi opened with a single, and left and scored when McDonnell slugged in the same territory.

The Wolves in the meantime had been struggling in vain at most to break through the defense of Baum. But it was no use. Stark's double in the fifth followed by Carle's high throw to second, and Check's out running up the first base line, and scored when Stark booted Brashers's way grounder. In the ninth Litchi opened with a single, and left and scored when McDonnell slugged in the same territory.

The score:
VENICE..... 3
TIGERS..... 3
Total..... 6

DOWN DODGERS IN TEN INNINGS.

(BY A. P. NIGHT WIRE TO THE TIMES.)
PITTSBURGH, Aug. 1.—Jack Miller's double, Wilson's sacrifice and Simon's single gave Pittsburgh the winning run over the Dodgers in the tenth inning today. Miller's single and Wilson's home run gave the Pirates their other two runs in the fourth.
Both Allen and Adams pitched beautiful ball, though Adams was hit rather hard in the early innings. The score:
PITTSBURGH..... 5
DODGERS..... 0
Total..... 5

GUARDSMEN START SHOOTING MATCH.

(BY A. P. NIGHT WIRE TO THE TIMES.)
SACRAMENTO, Aug. 1.—The California National Guards regimental rifle shoot opened today at the North Sacramento range with fifty-eight militia experts in camp. Splendid scores were recorded by the marksmen. Capt. Peiger, Lieut. Kopf and First Sergeant O'Rourke tied for first honors of the day with scores of 41 out of a possible 50. Seven others tied for second, high scores, with 44.
Today's shooting was done on the skirmish fire course. The match will last until August 5 and the experts will be obliged to shoot over every practice course.
The thirteen men at the end of the tournament will go to Camp Perry, O., to compete with other State militiamen in the national championship team shoot.

MATHEWSON CHECKS SLUMP BY DEFEATING THE CUBS.

(BY A. P. NIGHT WIRE TO THE TIMES.)

CHICAGO, Aug. 1.—Christy Mathewson checked the slump of the league leaders by defeating Cincinnati, Aug. 1.—Cincinnati played weirdly in the field in the early innings of today's game and Philadelphia won easily, 5 to 1. Alexander was master of the situation at all times, while the poor work of the locals placed Johnson in the hole frequently. The score:
PHILADELPHIA..... 5
CINCINNATI..... 1
Total..... 6

CHANCE SAYS HE WILL NOT RESIGN.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK BUREAU OF THE TIMES, Aug. 1.—(Exclusive Dispatch.) They have started a story somewhere that Chance is going to resign. It comes from Los Angeles. Chance says if he is going to quit he knows nothing about it. Why should he? He is drawing down \$1000 a week for winning a ball game every seven or eight days. It is the biggest clinch that ever was. Another story that is current here is that if McGraw had taken the Cubs when Chance was forced out, he would have been leading the league by ten games. Imagine it!

BROWNS AGAIN BEAT ATHLETICS.

Batting Rally in the Sixth Does the Trick.

Managers Switch Pitchers and Stovall Wins.

Detroit Tigers Land on Groom Beating Solons.

(BY A. P. NIGHT WIRE TO THE TIMES.)

PHILADELPHIA, Aug. 1.—St. Louis won its second successive game from Philadelphia today, 5 to 2, by a batting rally in the sixth inning. Play was stopped in the eighth owing to darkness.
In the sixth the visitors scored four runs, and another run in the seventh. Mitchell was very effective except in the fourth inning, when the home team bunched three hits with three errors and scored three runs.
Shawkey, who started the game for Philadelphia, retired after the first man up singled, and Bender took his place. As Hamilton has not been successful in games against Bender this season, Manager Stovall sent Mitchell to the mound in the second inning. The score:
ST. LOUIS..... 5
PHILADELPHIA..... 2
Total..... 7

SATURDAY MORNING.

OLDFIELD NOW IS FAVORITE.

Barney, on Mercer, Looks
Like Winner First Day.

No Practice Rule During
Hours of Sabbath Day.

Fast Cars of Racers Ready
for Saturday's Event.

BY BERT C. SMITH.

It will be quiet along the Santa Anita road race course tomorrow, as the Santa Anita race track is closed for the Sabbath day. The course will be open to practice on Sunday morning, but no racing will be held until Saturday morning.

On Monday morning the course will be open again. This morning the cars will be out on the track. Every morning this coming week, with the exception of Sunday, will see the racers tearing through the atmosphere. The final spins will come on Thursday.

Barney Oldfield has jumped into the lead race as a favorite. The speedster seems to have come into his own. He was out on the course yesterday morning with his Mercer and was consistent in driving slowly as he tried out his car. His one fast lap showed that he is one of the dangerous contenders for the Dick Ferris trophy.

There is not a more heady driver in the race than Oldfield. Barney knows his car. He is willing to take a chance when it is necessary. He will drive slowly in practice and it will be hard to get the dope on him, but when the racers are sent away, Oldfield is one of the men who must be watched.

Now that the entries for the road race have been announced, every driver of these fast cars will come to the open and take advantage of the morning practice hours to tune his machine for the eventful day.

Men and machines will be out on the track for the first time in the history of the Santa Anita road race. The world will be seen in this event of the season; and the spectators will be able to see the world-famous course, and the world-famous racers, and the world-famous cars.

It is possible for the driver to keep his car in the lead, but it is not possible for the driver to keep his car in the lead. It is possible for the driver to keep his car in the lead, but it is not possible for the driver to keep his car in the lead.

George Carmany.

ments in the present tournament have found exceedingly difficult to handle.

Armstrong's strong point may be said to be his defense.

Armstrong's defeat of Waldner today was unexpected.

He clearly outplayed the Chicago veteran, Waldner taking the first set mainly because of his superior play.

Armstrong had not gauged his attack to a left-handed player. After the first set Armstrong got his service to working effectively and clearly outgeneraled the Chicago man.

Griffin had little difficulty in defeating Blair. The latter is comparatively new to tournament play and though he worked hard, his activity and speed, but uncertain service were no match for the cool, speedy game of the Californian.

While the men were battling in the semi-finals, Miss Gwendolyn Rees of Dallas, Tex., won the women's singles title, defeating Miss Carrie B. Neely of Chicago in the final match, 6-3, 6-2.

Miss Rees becomes champion without playing a challenge match, as Mrs. Thomas Bundy of Los Angeles, formerly Miss May Sutton, who held the title, did not defend it this year.

In the finals of the men's doubles yesterday Hayes and Winston of Chicago, who won today over Blair and Gifford, will meet Ely and Barker of Chicago, who defeated Waldner and Gardner today.

The winning pair will enter as favorites in the doubles elimination matches.

The women's doubles title was won by Miss Rees and Miss Neely, who defeated this afternoon Miss Edith Hoyt of the University of Chicago, and Miss Miriam Stever of Chicago in the final match, 4-6, 6-2, 6-1.

The women's doubles title also passed without a challenge round, as Mrs. Bundy, who won the title with Miss Neely last year, was not able to defend it.

The prize would be divided as follows: \$1000, \$500, \$1000, \$500, \$250 and \$100.

Four valuable trophies will be awarded by class division.

A peculiar feature of the entry list is that there will be no car to take in the Chandler and Lyon trophy for 240 miles and under \$1000.

The prize would be divided as follows: \$1000, \$500, \$1000, \$500, \$250 and \$100.

Dainty aquatic contestants,

Who are creating something of a sensation at the Southern California swimming tournament this week.

WILLIE JOHNSTON WINS FIRST MATCH.

(BY A. P. ROBERTS FOR THE TIMES.)

NEW YORK, July 31.—Lawn tennis players began the matches in the New York State championship tournament today on the turf courts at Bayridge.

Willie Johnston, the young Californian, won his first match at 6-1, 7-5, against Guy Nankivel of the Oranien Field Club of Hackensack, N. J.

Store closes today at one o'clock. Shop on the shady side before the street gets heated up.

New Waists Have Arrived!

Not one style or two styles, but a half-dozen or more new models and each decidedly different, prettier than any we've seen for fall—and priced so moderately; \$5.75 and up.

Waists of Shadow lace, some introducing a touch of color. Others of the finest net, or plain or all-over embroidered. Others of chiffon or voile or plain or striped silk. Venise lace, novelty frills, accordion plaiting, fancy crystal buttons, etc., are the chief decorative features. All show the new long sleeve.

Prices, \$5.75, \$7.50, \$10.00 and \$12.50.

White Fiber Silk Hose

Have You Seen Them?

3 Pairs for \$1.00

Undoubtedly many of the so-called silk stockings you see in the future will not be silk stockings at all, but these new fiber hose.

They look and feel like silk and wear decidedly better. Even the best judges are deceived in them.

On sale Saturday, 3 pairs for \$1.00. Black or white.

CHILDREN'S WHITE HOSE.

We are as particular about pleasing children as grown-ups in hosiery; carry full and complete lines.

Children's Fine Cottons at 25c.

Children's Extra Nice Silk Lises, 3 pairs \$1.00.

Every size from 5 to 9½.

Two Extra Towel Items

for Saturday Morning

FINE HUCK TOWELS of good weight and regulation size, hemmed ends.

BLEACHED BATH TOWELS, extra heavy, woven with double loop. Special for Saturday, 25c each.

A Neckwear Sale

See the window display of these pretty fichu collars, note the prices:

35c and 50c Styles at 25c.

65c and \$1.00 Styles at 50c.

They are of fine net or lawn with lace or embroidered frills or embroidery medallion decorations. More than a dozen good styles. Sale is for this morning only.

UKELELES

The Famous Instruments \$8.00 Up

of the Hawaiians. . .

The distinctive, exquisite music of these unique instruments has captivated the whole country in a remarkably short time. An Ukelele is not hard to play. These instruments are precisely like those used by the Famous Hawaiian Quintette of which you have heard so much. Come to the Birkel Company and see this Special Ukelele at \$8.00.

Prof. Kai Will Give Purchasers a Free Lesson

As a Special Offer for a short time, we have made arrangements with Prof. Kai, a native Hawaiian, known the world over as the finest Ukelele player, to give one lesson free to purchasers of Ukeleles. You can also arrange to take a course of lessons under Prof. Kai, at a very moderate price. Come in and get details.

This \$100 Victrola

resembles the Famous \$200 Machine very closely. It has the same superior tone quality and merit that has made the high priced Models so universally popular. A dollar or two weekly will suffice to have this splendid Entertainer in your home. Come to our Talking Machine Department and hear the singular Beauty with which this Machine plays any Music you suggest.

Mason Resignation Accepted
but Is Postponed.

Pastor Dramatically Defies
Enemies in Church.

Friends Say He'll Be Named
Again in October.

In a session filled with dynamics, innuendo and applause, the Los Angeles Presbyterian sitting yesterday afternoon at the Central Presbyterian Church, dissolved the relationship of pastor and people existing between Dr. O. H. L. Mason of the First Presbyterian Church of Long Beach and his congregation, but deferred such dissolution until October 1. Both sides say this is a victory, and Dr. Mason's friends assert that at the end of the allotted time the pas-

In yesterday's hearing before the Presbytery, on the case of Rev. O. H. L. Mason of Long Beach. At the top is Moderator H. H. Fisher. The accused minister is shown on the right below. From left to right, below, are E. S. Chapman and W. B. Young, the latter stated clerk of the hearing. Sketched during the proceedings by a Times staff artist.

tor will be re-elected to the \$400-a-year place.

Dr. Mason himself says that he has just got his fighting clothes on and that he is going back to Long Beach. "I don't know what else to do in the event of an invitation to remain longer than that time," he told The Times. "I have been called to a large church in Canada, and big a man, as I am, I am a fighter."

"I made a mistake in leaving Long Beach and sending my resignation from Berkeley, but my health was poor. I was nervous, and exaggerated the importance of the disaffection really amounted to nothing. Naturally, I am a fighter."

"Some folk say that I am too liberal in my preaching, and a few of the members of the Presbytery who are after me have their eyes on the job. The people of Long Beach knew that I was on the level. They know that if I had been in Los Angeles I would have been a man with a woman. I would tell all about it when I got back to Long Beach. I am a fighter, and I am not going to fight for my reputation."

DEFIES THEM.

"I defy any man, woman or child to substitute any other man against me. I defy them. My life is as clean as that of any other man in the Long Beach session. I have been maligned and persecuted. I want to be Christian, manly, and every man."

"There has been a concerted attempt to ruin my character, and I have evidence in my possession about some of the rumors which have been circulated against me as black as hades. I am not playing politics, but I am a man who is not a Christian man. My ambition is to do the biggest thing in the Long Beach church. The community and the kingdom of Jesus Christ."

Acting Moderator Rev. H. H. Fisher had his hands full during the afternoon. Dr. L. C. Kirkus tried to secure a secret session and failed. Dr. E. S. Chapman, the temperance man, came to the support of Dr. Mason in an impassioned address which drew round after round of applause and called down upon the Presbytery the admonition of the moderator.

"The hell hounds of vice are on your track and on mine," he said. "I have been followed by day and by night, just as every man in the world who strives to combat the forces of evil. Traps have been set without number. The enemy will not kill but he will surround you. As I am, I never go to a strange house without a witness, and I never admit a woman whom I do not know. I believe in the clench fist, and I appeal to you to stand by me and by my brother who has called me to be of high standing to my private office. I believe in the clench fist, and I appeal to you to stand by me and by my brother who has called me to be of high standing to my private office."

F. C. Ireddell, representing the Long Beach session for the purpose of presenting the resignation, performed his duty in obvious embarrassment, and requested its acceptance by the Presbytery about when the episode commenced.

L. R. Palmer presented a petition signed by 600 members of the congregation praying the Presbytery to refuse acceptance of the resignation, Ireddell responded that the congregation and the session had already accepted the resignation at Dr. Mason's request, and that six of the eight members of the Board believed it to

(Continued on Third Page.)

Charges Plot to Ruin Pastor's Character.

IN THE WINERY CASE.

Vineyardists to File New Habeas Corpus Writ or Allow a Trial by the Justice Court.

Byron Hanna, counsel for winery men who are affected by the ruling of Judge Finlayson—exclusively published in yesterday's Times—that the prohibition ordinance of the Supervisors is sound law, will either file a new writ of habeas corpus in the Appellate Court or allow the case to go to trial in the Justice Court.

On the other hand, County Counsel Hill said yesterday that he believes the decision contains sound principles of law.

The case of the People against Ellsworth, recently decided, declares the power of Supervisors to deal in any manner with the liquor question, and said Hill. "In other words, the traffic has no standing in law, anyway. It is like a maverick."

The Supreme Court will ultimately be asked to pass on the case, as the ordinance puts out of business many wineries in the county with millions of dollars invested in vineyards.

Sweeping.

BLOCK SIGNAL NEARLY
EVERY MILE OF TRACK.

State Railroad Commission Indicates That Such May Be Its Order to the Pacific Electric as Result of Conditions Shown to Exist by Wreck at Vineyard Station. Hearing Continued Today.

AS THE climax to testimony yesterday showing that the Vineyard Junction wreck, with its concomitant loss of life, might have been prevented had the line been protected with automatic block signals, the State Railroad Commission indicated that the State Railroad Commission will probably issue an order compelling the installation of block signals on practically the entire Pacific Electric system, as well as the extension and modification of the system used in the training of motormen and conductors.

"The testimony shows," said Edgerton, "that a flagman had been picked up by the telegraph train 90 feet back of the place it came to a stop. Therefore, if the rules had been strictly complied with and a flagman dropped at the moment the first flagman was picked up, he would have gained 300 feet, probably a good deal more, and there would have been no wreck."

Chief Engineer Earle, Service Inspector Wilson and Assistant Service Inspector Shakespeare of the commission's staff, all testified from the stand that it was their belief that all of the Pacific Electric's high-speed lines should be protected with automatic block signals.

ALL BUT INFALLIBLE.

"Are there any chances of failure in these block signal systems?" asked Edgerton.

"Only about one in 100,000 movements, according to a most thorough test by the Baltimore and Ohio," replied Earle.

"What is your idea as to the specific applications on the Pacific Electric?"

"Only, I believe that safety of operation dictates their installation on all lines where there is more than one train an hour."

This reply drew the remark from General Manager McMillan of the Pacific Electric that this would mean practically all the company's miles and inquiry from President Shoup if it would be necessary to make block installations within city limits.

"That is a matter the commission will have to decide," said Earle, "but it seems to me that the municipal speed restrictions will operate to keep cars within the safe limit of speed."

Figures offered by Earle showed that automatic block installation costs from \$900 to \$1400 per single-track mile, where the blocking stations are an average of one mile apart. Their repair and maintenance was given by

COUNTER-TRAP
SNAPS; GRABS.

Human Dictograph Lands
Dr. Wilcoxon Again.

Charged With Grand Larceny; Attempted Bribery.

Who Is Man Back of Alleged
Bunco Steerer?

Dr. L. O. Wilcoxon, alleged bunco man, who was arrested under unusual circumstances some time ago, after being cloistered with E. T. Earl, was re-arrested yesterday on a charge of grand larceny. The arrest was made in Detective McLaren's private room in the District-Attorney's office, on the showing of a conversation taken down by a concealed stenographer.

It is strongly suspected that Dr. Wilcoxon was working for some concealed person for according to the story told by William La Casse and his attorney, Jud Rush, the alleged bunco man made representations of the delinquency proceedings against La Casse by giving \$150 each to Deputy District Attorney McCarty and Detective McLaren.

Attorney Rush immediately communicated with Capt. Fredericks. The lawyer said he proposed to try his cases in the courts and resented the alleged proposal of Dr. Wilcoxon. According to La Casse, Wilcoxon telephoned to Detective McLaren from the former's office. He did not hear the conversation. The detective said to some extent that he believed the alleged bunco man merely made an appointment.

When he met McLaren in the latter's office he asked the detective to do some work for him. McLaren's divorce proceedings, but McLaren stated yesterday he at once refused.

By the Man Who Knows.

MULHOLLAND'S REPORT
EXPLICIT, INSTRUCTIVE.

Deals Frankly and Clearly With Every Aqueeduct Phase and Explains Progress of Construction to Date. Says Problem of Distribution Requires New and Prompt Solution by the Water Department.

THE voluminous annual report of William Mulholland, chief engineer of the water department, was adopted yesterday by the Public Service Commission, and ordered transmitted to the City Council this morning.

The portion of chief interest is given below, and the careful reading will give people a clear understanding of the water situation today and of the urgent need of the Los Angeles aqueduct, which some trifling fault-finders have been declaring a useless waste of money. The San Fernando dam, the present status of the Franklin Canyon trunk line, the San Pedro system and the demands for water for the city and the surrounding territory in a clear and interesting way. The chief engineer says, in the main:

In addition to extraordinary demands in the way of pipe extensions, increase in pumping equipment and reservoir capacity, there has been added to the duties of the department during the past twelvemonth the burden of preparing for the receipt and disposition of the water of the Los Angeles aqueduct.

CITY TRUNK LINE.

Chief among the items of expenditure for the year will be found that for the construction of the city trunk line over the Franklin Canyon route. While the most important function of this line is to bring the Owens River water from the outlet of the aqueduct to the city of Los Angeles, a distance of 25.5 miles, it is also designed to serve the entire district through which it passes, as well as the broad extent of territory lying to the south of the Santa Monica range and southerly and westerly from the mouth of the Franklin Canyon.

The funds to provide for this work were procured by a bond issue of \$1,500,000. Since the construction of the dam, waterworks by the municipality in 1902 this is the third issue of bonds provided for any purchase or connection with either the maintenance or improvement of the system.

Of the other two issues, both of which were made in 1904, one was to the amount of \$150,000 for the purchase of the Silver Lake reservoir site and the construction of the dam, and the other to the amount of \$335,000, went for the purchase of the works of the West Los Angeles Water Company. It may here be noted with regard to the last named, that the lands alone acquired in this purchase have a value in the open market of more than two-thirds of the amount paid for the works.

IN FRANKLIN CANYON.

Were the Franklin Canyon line built exclusively to supplement our present supply with Owens River water for the prospective needs of the city of Los Angeles within her present corporate limits, its estimated cost would be \$548,474, and in such event it would not have been necessary to have had recourse to a bond issue for the building of the line, as the department has already expended two-thirds that amount out of its funds. The construction of the San Fernando reservoir, a structure the cost of which should be almost wholly borne by the territory supplied with surplus aqueduct water.

This demonstrates that the municipal waterworks under the present rates are self-sustaining and capable of meeting not alone the ordinary demands of maintenance and operation, but also the exigencies of extraordinary expansion and development, exclusive, of course, of the acquisition of a water supply which is

DEATH FOLLOWS SHOCK.

Well-Known Printer, Ill But Few Days, Passes Away Suddenly After Fire in His Room.

Frank R. Schuts, 48 years old, in the employ of The Times composing room as a make-up man, and one of the well-known printers of Southern California, died suddenly of heart disease at the Moorcroft Hotel, First and Hill streets last night. Schuts had been ill for two or three days, but yesterday morning was feeling better and smoked a cigar in bed. He fell asleep and the cigar dropped on the bed clothing, starting a fire. The room became filled with smoke but the fire was extinguished with small damage. The excitement, however, is supposed to have produced a shock from which Schuts died.

Schuts was born in New York and went to Kansas City at an early age. He came to the Coast from Kansas City in 1887. In 1891 he entered the employ of The Times, later going to San Diego, where he worked for some time. Then he returned to The Times. Schuts was a capable and conscientious workman and made many friends. He was an Elk, a Knight of Pythias, and a member of the "Prisoners' Protective Fraternity." He leaves a sister in Seattle, who was recently married, and a brother near Fresno. His parents are dead. He leaves a considerable estate.

The body was taken to the Broomer mortuary. Arrangements for the funeral will be made when word is received from relatives.

LOS ANGELES REPRESENTED.

Cregier Enters Fight in Moose Parade in Chicago for the Purpose of Boosting This City.

Copies of Chicago papers just received here show the stirring parade of the Loyal Order of Moose, in which 2000 members participated, and special mention is made of the Los Angeles float, arranged and entered by N. Banks Cregier of this city.

A large auto truck was used for this purpose. It was decorated with an abundance of flowers, palms and ferns, and Cregier, who is Dictator of the Los Angeles Moose, is in the United States, is shown by photos in the midst of this setting. The papers state that the Los Angeles float attracted much attention and favorable comment.

WHO SHALL BE SERVED.

The question then arises, where shall the limit be placed and who shall be served first? Are Smith's demands to be given preference over Brown's, or are Jones's pressing needs to be regarded as superior to either of them. Some of the newly annexed territory within the city limits has no water supply now and never will have. Moreover it is not subject to assessment for any of the bonds for which the main portion of the city is pledged to secure a water supply. Under these conditions, such areas, as far as a water supply is concerned, should be regarded as being subject to the same conditions as contiguous territory outside the city limits, and way to contribute toward the building of a water system.

Inasmuch as these are matters pertaining more to politics than to problems of engineering, I desire to explain that my reason for favoring the subject at this time is to suggest to the board that the legitimate construction expenditures, if they are used for the development of the works in the ordinary way, the coming year, as has been the case in the past, will consume the entire revenue of the department that are not required for maintenance and operation.

The construction of the lower San Fernando dam has progressed at a very satisfactory rate since the work of placing the earth in the main body was begun in the summer of 1912. The earth is being placed by the pumping and sluicing method and is progressing at the present time at the rate of approximately 4000 cubic yards per day, there being approximately 800,000 cubic yards already in the structure.

At the south end of the tunnel No. 108, which is the point of termination of the aqueduct proper and the point of beginning of the Franklin Canyon line, a substantial and

PRESTIGE AS A POLO CENTER.

Riveride Promises to Become
Point of Importance.

Will Convert Chemawa Park
Into Turf Field.

Montreal Pastor Rhapsodizes
Over City's Fascinations.

RIVERIDE, Aug. 1.—As a result of the decision of the Riverside Polo Club to convert Chemawa Park into a turf field, this city is assured of recovering something of its old-time prestige as a polo center.

Secretary DeWitt Hutchings has received word that a number of the famous poloists of the East will make Riverside their headquarters the coming season. The Denver team, which will winter here, will meet the Santa Barbara, Pasadena, Coronado and other teams on the local field.

The Riverside club is now a member of the American Polo Association, and this fact, combined with the knowledge that there will be an even more turf field available, will serve to attract renewed attention to the city that claims to be the originator of the sport of polo in California.

DIVINE IS IMPRESSED.
"Nothing I have read of Riverside has been exaggerated," was the comment made by Dr. Robert Johnston of Montreal, pastor of the largest Presbyterian congregation in Canada, this morning.

"It is all so beautiful it beggars description. The scenery that has been displayed in transforming this valley from a waste desert into a blooming garden is one of the things that impressed me most. I always imagined that in the north one finds the greatest energy being expended on vast developments, but what has been done here in development ranks with the great schemes that have been carried out in the West."

NEW BREVIES.

Miss Zella S. Coombs, daughter of Mr. and Mrs. George A. Coombs of 4000 North Chestnut street, were married at the home of the bride at the hour of 4:30 this morning. The bride is a native daughter, and a graduate of the Girls' High School, class of 1915.

Miss Zella S. Coombs, secretary to Mayor Peters, and Miss Margaret Bennett, have returned from a month's outing with the members of the Sierra Club.

FRANKLIN CANYON TUNNEL.

The Franklin Canyon tunnel with a length of 3751 feet was "holed" on June 2. Its cost being somewhat in excess of the estimate, due to encountering a much contorted and broken stratum of formation under the summit of the range, making heavy timbering necessary. The permanent concrete lining of the tunnel will be completed in time to meet the demands of the coming calendar year.

THE PROPOSED LOWER FRANKLIN RESERVOIR.

The proposed Lower Franklin Reservoir will have a capacity of 155,000,000 gallons. It is to be constructed by damming the canyon at a point having an elevation of 884 feet above sea level, the high water line being 775 feet above sea level. This dam is to be constructed of earth and will have a concrete core wall carried to bed rock seventy-six feet below the bottom of the canyon.

Red rock consists of firm slate which is expected, will be reasonably impervious. The core wall containing 2150 cubic yards of concrete has already been constructed in a trench carried from ground surface to bed rock. Construction of the earthwork portion of this dam cannot be started until water is delivered through the Franklin Canyon line, as there is no water available at the site for the purpose of properly compacting the earth or supplying the other needs of dam building.

From the dam of the Lower Franklin Reservoir into Los Angeles, the line will consist of a steel pipe sixty inches in diameter down to Sunset boulevard, distance of 400 feet, to radiate in lines of smaller diameter, two of which will connect with the mains of the city's present distribution system. One thirty-six inch diameter will terminate in the thirty-inch cast-iron main along Western avenue at Pico street, and another twenty-four inch diameter will extend along Santa Monica boulevard through Hollywood. Designs for other branches are not yet worked out.

SAN PEDRO WORKS.

The heaviest burden put upon the department during the fiscal year was the purchase and rebuilding of the San Pedro Water Company's plant, which supplies the territory covered by the former towns of San Pedro and Wilmington. The acquisition of this plant also involved the taking over of the works on Terminal Island, which were supplied by the city of Long Beach.

Twenty-five miles of cast iron pipe have already been laid in the rehabilitation and extension of the system and the total expenditures to date, exclusive of the purchase price of the works due to the taking over of the plant, has been \$228,532. As far as the work has been accomplished, although speed was necessary, there has been no sacrifice of quality and the construction is of a substantial and permanent character.

The reservoir now in use at San Pedro will have to be enlarged and almost rebuilt, and very much additional work in the way of enlarging the distribution pipes will have to be done in the coming year.

There are some portions of San Pedro that have too great an elevation to be supplied from the present work and I would recommend that in order to serve this territory, a relay line, electrically driven, be established at the present reservoir, which will have a low line of 200 feet when rebuilt. This high service district should

Mulholland's Report.

(Continued from First Page.)

permanent structure has been completed to discharge the aqueduct flow. From this point a concrete conduit is carried down the mountain range by a steep descent having a fall of 167 feet in a distance of 1955 feet and so constructed as to give as near as possible a natural cascade effect to the descending water. While the purpose of this design is mainly esthetic, it has a utilitarian value in thoroughly aerating the water as it flows from the aqueduct.

NATURAL CASCADE.

From the foot of the cascade a concrete conduit passes down approximately through the center of the Upper Fernando reservoir site and enters a covered conduit at a point below the site of the dam for this upper reservoir. It is intended at some future time to construct a power plant. From this point a covered conduit follows the line of the high-water line on the west side of the lower San Fernando reservoir at the west end of the dam where it crosses a gate tower from which lead the closed or pressure portion of the Franklin Canyon line.

This tower is designed so that it may not alone deliver the water from the by-pass, but also by means of gates with which it is equipped, regulate the flow in case of interruption in the aqueduct flow. The cascade, the open and the covered conduits including two tunnels, from the outlet of the aqueduct to the tower, a distance of 16,134 feet, have been completed and the gate tower is under construction. The tower is under construction.

Below the gate tower the line continues as steel pipe for a distance of 23,420 feet to the northern end of the Franklin Canyon tunnel.

At the lower point of the San Fernando Valley where this pipe crosses the Los Angeles River the pressure will be 115 pounds to the square inch. In case of emergency, water can be discharged into and carried in the natural channel of the river to the present headworks plant at the inlet of the main supply conduit. The contingency for this, however, is somewhat remote as the added growth of the city to the southwest will be met by the line at its southern terminus, thus relieving the draft on the old headworks.

CONTRACTS FOR STEEL.

Contracts for all the steel, amounting to 8000 tons, were awarded on October 25, 1912. The 4000 tons of plate rolled punched and sheared and ready for fabrication in a trench, which formed that part of the contract awarded to the Riter-Conley Manufacturing Company of Pittsburgh, Pa., has been delivered and is now on the ground. The remaining 4000 tons, which the Lacy Manufacturing Company of Los Angeles is under contract to deliver at the side of the trench in approximately twenty-four lengths, is being furnished as fast as we have need for it.

The work of laying this pipe is being prosecuted diligently at two different camps, the excavation being accomplished by two steam shovels and the riveting being done by pneumatic tools operated from two compressor plants stationed on the job. It is anticipated that the line will be completed in time to meet the demands of the coming calendar year.

FACT AND CONJECTURE.

Army Engineer Officer's Letter and Report of Mormon Island Naval Station Much at Variance.

A report circulated yesterday to the effect that the government will establish its naval station for this port on Mormon Island, in the inner harbor, does not look promising. In view of the statement made to the Harbor Commission by Col. McKinstry in a letter filed yesterday concerning the transfer of lands by the city to the United States, so as to make provision for a 1400-foot-wide channel in the inner harbor.

McKinstry recommends that nothing be done to prevent the widening of the channel to 1000 feet at some future time, should the harbor development require this, but says:

"So far as I am concerned I find it very difficult to believe that, whatever the ultimate needs of the harbor may be, there is any present or immediate prospective need of widening the entrance channel to 1000 feet."

As a narrower channel would not be advantageous for the establishment of a naval station on Mormon Island, the report that such a location is assured appears to be without foundation.

LAST LONG REST FOR STEARNS.

ONE OF LARGEST AUTOMOBILE FUNERALS HERE.

Casket Covered With Floral Offerings—Impressive Masonic Service and Episcopal Rites—Prominent Motor Dealers Pallbearers—Leaves Considerable Fortune.

The body of E. Roger Stearns, late president of the Automobile Dealers' Association, was laid to rest in Inglewood cemetery yesterday afternoon. The metal-lined casket was covered with a mass of floral offerings from business associates and friends and the Masonic service was conducted at the Pierce chapel, where a large crowd gathered. The ceremony was impressive but brief. The men who had known Stearns passed in single file before the casket to pay their last honors.

An immense cowl of an automobile, with a broken steering-wheel, the offering made by the dealers, was one of the most striking of the floral pieces. The words "Our President" were worked across the cowl. The dealers were seated in the body of the chapel, with Stearns' relatives and close friends on either side. Another handsome offering, in the form of an immense wreath, was made by the Masons. The words "Al Malakita" were worked into this floral piece.

After the ceremonies at the Pierce chapel an automobile funeral procession, one of the largest ever seen here, was conducted from the city to Inglewood, west to the cemetery, where Rev. Baker P. Lee of Christ Episcopal Church had charge of the service.

NEW TRIAL ALLOWED.
The District Court of Appeals has affirmed the decision of the local Superior Court, allowing a new trial in the action brought by Mont. D. Shillington against William Dodge. The verdict was in favor of the defendant in an action to recover damages for personal injuries, incurred in an automobile accident on Fair Oaks avenue, Pasadena.

Yellowstone Excursions.
All excursions, including day, night, and week-end, to the Yellowstone National Park, are being handled by the Yellowstone Excursion Company, 215 Grand Blvd., Los Angeles. Main Office, 215 Grand Blvd., Los Angeles.

STUDIES OUR SYSTEM.
Secretary of New York Probation and Protection Association Interested in Policemen.

Secretary Maud Miner of the New York Probation and Protection Association visited Probation Officer Markeden yesterday in an effort to familiarize herself with the methods here of handling juveniles. She is especially interested in the police-woman system and the best method of dealing with young girls.

Miss Miner is touring the Coast, seeking new ideas to be put into effect in New York. She visited the various juvenile homes and expressed herself as impressed with the method in vogue here.

FACT AND CONJECTURE.

Army Engineer Officer's Letter and Report of Mormon Island Naval Station Much at Variance.

A report circulated yesterday to the effect that the government will establish its naval station for this port on Mormon Island, in the inner harbor, does not look promising. In view of the statement made to the Harbor Commission by Col. McKinstry in a letter filed yesterday concerning the transfer of lands by the city to the United States, so as to make provision for a 1400-foot-wide channel in the inner harbor.

McKinstry recommends that nothing be done to prevent the widening of the channel to 1000 feet at some future time, should the harbor development require this, but says:

"So far as I am concerned I find it very difficult to believe that, whatever the ultimate needs of the harbor may be, there is any present or immediate prospective need of widening the entrance channel to 1000 feet."

As a narrower channel would not be advantageous for the establishment of a naval station on Mormon Island, the report that such a location is assured appears to be without foundation.

Clogged-Up Liver Causes Headache.

It's foolish pretending to suffer from indigestion, sick headache, biliousness, dizziness, nervousness and kindred ailments when you can get rid of them with CARTER'S LITTLE LIVER PILLS.

They will do it all. They are a low, pure, vegetable. Act gently on liver and bowels.

Small Pill, Small Dose, Small Price. The GENUINE must bear signature.

Hooley! Blood Free of Impurities.

Special Excursion to TORRANCE

Sunday, at 10 a. m.

See one of the wonders of the modern California—her modern industrial city—a clean city of humming factories and lawn-set homes—where millions of dollars' worth of development are actually established NOW!

The rock-bound nucleus of Torrance is securely founded. The city is surely and steadily growing—offering unusual investment opportunities.

Excursion will be in special cars—party limited. Secure your tickets NOW at our offices.

625 South Hill Street.
Sales Offices Also at Torrance.

Yellowstone Excursions.
All excursions, including day, night, and week-end, to the Yellowstone National Park, are being handled by the Yellowstone Excursion Company, 215 Grand Blvd., Los Angeles. Main Office, 215 Grand Blvd., Los Angeles.

STUDIES OUR SYSTEM.
Secretary of New York Probation and Protection Association Interested in Policemen.

Secretary Maud Miner of the New York Probation and Protection Association visited Probation Officer Markeden yesterday in an effort to familiarize herself with the methods here of handling juveniles. She is especially interested in the police-woman system and the best method of dealing with young girls.

Miss Miner is touring the Coast, seeking new ideas to be put into effect in New York. She visited the various juvenile homes and expressed herself as impressed with the method in vogue here.

FACT AND CONJECTURE.
Army Engineer Officer's Letter and Report of Mormon Island Naval Station Much at Variance.

A report circulated yesterday to the effect that the government will establish its naval station for this port on Mormon Island, in the inner harbor, does not look promising. In view of the statement made to the Harbor Commission by Col. McKinstry in a letter filed yesterday concerning the transfer of lands by the city to the United States, so as to make provision for a 1400-foot-wide channel in the inner harbor.

McKinstry recommends that nothing be done to prevent the widening of the channel to 1000 feet at some future time, should the harbor development require this, but says:

"So far as I am concerned I find it very difficult to believe that, whatever the ultimate needs of the harbor may be, there is any present or immediate prospective need of widening the entrance channel to 1000 feet."

As a narrower channel would not be advantageous for the establishment of a naval station on Mormon Island, the report that such a location is assured appears to be without foundation.

Next Sunday August 3d is TEACHERS' DAY at Belle-Mead

The trip out through the newly developed southwest section of Los Angeles—to the high, slightly slope of beautiful Belle Mead, from which the entire, complete, city of Los Angeles can be seen—will prove both a surprise and a delightful education.

Next Sunday is "Teachers' Day"—and we invite all teachers to spend a few leisure hours in the fresh, pure air of high Belle Mead and learn the real beauties of California—look out across California's greatest city and gaze on her beautiful, rugged Sierra Madre.

And not only do we invite the teachers—we invite you—everybody. Beautiful little souvenirs of the day will be given away free—something that you'll want to hang up in your room and keep always.

Cities and Towns South of Tehachep's Top—Los Angeles County News.

ONE KILLED IN COLLAPSE.

Concrete Bridge Over Arroyo Seco Paves Insecure.

Three Precipitated One Hundred and Fifty Feet.

Tons of Material Fall With Luckless Artisans.

PARADENA, Aug. 1.—An entire section of the forms for the floor over the highest arch of the \$200,000 concrete bridge now being constructed across the Arroyo Seco at the west end of Colorado street gave way at 8 o'clock yesterday afternoon and let thirty tons of liquid cement and 100 tons of scaffolding fall to the ground, 150 feet below.

Sixteen men were at work on the top of the arch at the time. Three fell with the debris. One was killed outright; another was extricated after twenty minutes' work and will live. The third was buried up to his neck in the soft concrete under a network of heavy timbers about twenty feet deep for nearly five hours. He was finally rescued and found to have a leg crushed and one arm so badly hurt that amputation will be necessary.

The other workmen saved themselves, some by running back to a safe place on the bridge, and three by hanging for three hours to wires.

The dead man was John Vico, a dumper, who lived in Los Angeles.

He was picked up with his head crushed.

C. J. Johnson, the next taken out of the death pile, who lives at No. 417 Central avenue, Los Angeles, may lose his left eye and his right arm was mangled. He was taken to the Marengo-avenue Hospital.

H. Collins, a wire worker, who lives in Pasadena, was taken out at 9:45 o'clock and taken to the Pasadena Hospital. He may live.

Great heroism was shown in the rescue of Collins. No sooner had the mass of wood and cement fallen than every man on the grounds seized saw, crowbar, jack, or whatever tool he could lay his hands on, and sprang on the pile of timbers. Above them a still larger section towered, with its uprights buckled and its upper beams hanging at a dangerous slant, seemingly ready to fall any minute.

A lookout was stationed on top of the bridge and another off to one side to give a warning if it should be seen to start, but not a man at work would have had a chance to escape should such a second accident have occurred.

Soon after Johnson was brought up the top of the workmen heard Collins calling to them from far down in the depths of the pile of wreckage. His cries were cries of pain and all worked the harder.

Owing to lack of room, the rescue party was soon reduced to about eight men, led by Alfred Larson, the superintendent. They burrowed into the heap like prairie dogs, saving their way as they went. After two hours' working which they resented the injured man with calls of "Never mind, old man, we'll have you out soon," they reached him. They found him wedged tightly and buried to his neck in the liquid cement. The tip of one hand also protruded. To clear away the cement it was necessary to enlarge the hole and Dr. R. H. Newcomb, in order to save the man's suffering, took his life in his hands and descended into the hole to administer a palliative. He had to use the hypodermic needle on the patient's forehead.

Those who worked with Larson to extricate Collins were E. Erickson, J. Mulaney, Samuel Overton, John Moore, R. Reynolds, Jesus Colorado, Colorado, David Cotterell, N. Nelson.

SPEARS RABBIT ON AUTO CRANK.

PORTERVILLE, Aug. 1.—A. J. Salladay, a wealthy rancher of the Terra Bella section, claims the medal for originality in killing of jack rabbits. Salladay's performance consisted in running down the animal with his car and intentionally spearing it on the crank handle of his machine.

Salladay was driving to this city last evening and when a short distance from the city limits a rabbit ran into the glare from the headlights. Salladay put on full speed and evidently overtook it. It was when Salladay drove his machine into a local garage that he found the animal caught on the starting crank of the car.

SANTA MONICA GROWS RICHER.

Fire and Soldier Exemptions Hurt Considerably, but the Showing Is Unusually Good, Nevertheless.

SANTA MONICA, Aug. 1.—Soldier exemptions and the Ocean Park fire, which wiped out several hundred thousand dollars worth of taxable property, have heavily on the assessed value of Santa Monica for 1913-14, but despite these handicaps more than \$1,000,000 increase in property values was shown over last year by the figures made public today by City Assessor Dale.

The total this year is \$15,761,795, an increase of \$1,351,330 over last year's figures.

The total value of land is shown to be \$10,110,510, and of improvements, \$5,651,285. Personal property amounts to \$331,500, including 121 automobiles, valued at \$145,000, and money in the city is placed at \$42,690. The soldiers' exemption valuation is \$93,510, and the exemption of the cooperative properties \$181,000.

The great increase of property valuation brought about principally through the blighting of new class residence subdivisions in the north and northeastern part of the city, is responsible for the gratifying boost in property values.

ELECT NEW TRUSTEE.

WATTE, Aug. 1.—M. J. Warren has been elected to fill the vacancy on the City Board, caused by the resignation of Hugh Gove last week. Mr. Gove was elected for a four-year term and had yet a little over two years to serve. Mr. Warren will hold office until next April, when a man will be elected to fill the remainder of the term.

Mr. Warren has been a resident in this city for some years and is strongly lined up with the "dry" element. A peculiar incident in connection with his election is that he was supposed to belong to the "dry" and why Perkins favored Lane's appointment to the Council at this time is somewhat of a mystery.

None of the "dry" Trustees favored Lane's appointment, and his nomination failed to receive a second.

TALE OF THE SEA.

SAN PEDRO, Aug. 1.—The private yacht Comodoro came in port yesterday afternoon with a story of tragedy. While cutting across the channel from Avalon the Comodoro sighted what was apparently a big ship in distress about four miles off shore. The yacht hurried to this spot and reported the news and was ordered to the Marine Committee.

Dr. Cover says that he has labored for three years to bring the choir chorus to a successful point and now feels that the responsibility for its continuance should be given to some one else more capable. Dr. Cover was lined up with those opposed to the choir, but in the final showdown he signed the exonerating resolution with the others. Now he retires from active work in the choir department of the church.

GENERAL SHAKE-UP SHOWS FIGHT IS IN PROSPECT.

Hemet, Aug. 1.—There has been a general shake-up in the affairs of the Southern Sierra Power Company in Hemet, Peris, Elsinore, Corona and San Jacinto during the last few days, and the Sierras company has discharged all the men who were put in as local managers by F. A. Worthley, district manager, in the above-named towns.

These changes have come at a time when they were the least expected, and the people in several of the towns are considerably wrought up over the matter. It is hinted that there is a disunion in the ranks of the Sierras company, and that this trouble has reached a factional fight between the Nevada and California stockholders.

From good authority it is learned that the Edison Electric Company is also making preparations to enter the field, and that N. J. Freed, who has been the Sierras company's local manager here, will doubtless have charge of the construction work in this section. The announcement made by W. D. Wither a few days ago that he would put in a twenty-four-hour service, has also complicated matters.

There is a great deal of dissatisfaction in Hemet on account of the discharge of Manager Freed, as he has been here since the company started, and has secured an enormous amount of business for the Southern Sierra Power Company.

Just what W. F. Whittier intends to do in the lively fight which is sure to come is not known. It is rumored that he may be in league with the Edison Electric Company, which is undoubtedly true in this direction. Engineer G. E. Draw of Los Angeles, with a force of men, making surveys at the Hemet dam for a purpose not known, and the representatives of Mr. Whittier in Hemet are reticent about the matter.

It is stated, however, on good authority, that a pole line may be put in from the Hemet dam, and that dynamite and other machinery may be installed at this great waterfall to generate electricity. It has been given out officially that the pole line will be put in to generate enough electricity from this great dam to furnish power for this entire section, including the operation of an electric line, which is one of the possibilities in the near future.

INVENTOR IN UNUSUAL TASK.

Long Beach Electrified by a Daring Experiment.

Victims of Auto Accident Will Probably Recover.

Resident Noted for Temperance Writings Passes.

LONG BEACH, Aug. 1.—Without "fuss or feathers," and making no advance announcement of his intentions, even to his office force, inventor John M. Caga this morning quietly enlisted the crew of his submarine in the venture and after seeing that everything was in good working order started the submarine craft, unattended, out into the deep waters of the bay channel on its initial ocean trip.

The office force, which has unbounded faith in the boss and his craft, were dumfounded when one of their number, standing near the entrance from the office in the top floor of the First National Bank building, saw the submarine sail out in the channel.

It was shortly after 9 o'clock when the submarine passed the lagoon bridge of the inner harbor, and after passing the jetty, turned east and passed close to the shore and the big pleasure pier on the ocean front. Then it went seaward about four miles from shore, where it was put to a test of its ability to steer and handle easily. The engines worked smoothly and the steering device answered every demand.

The submarine sailed steadily at the rate of fifteen knots an hour. After an hour-and-a-half trial Caga and his crew returned to the plant in the inner harbor. The boat was unaccompanied by any tender, showing the faith of the inventor in the competence of his crew.

During the trip most of the crew sat on top of the boat, but before it goes out again a brass railing will be put around the deck for greater convenience.

A telegram from Capt. Barberis of the navy, this morning, notified Caga that his visit to Long Beach, fixed for August 8, would be delayed a few days, until the captain can secure the credentials which Caga has asked for before showing him over the boat.

ALL MAY RECOVER.

Miss Daisy Rucker, one of the victims of the auto wreck which occurred at the Pacific Electric station Wednesday night, is still hovering between life and death. Her condition is such that Physicians say the skull is not fractured and that the protracted insensibility probably is due to a blood clot in the brain. Her color, respiration and general condition are very near normal, which makes the case all the more hopeful.

Despite this, the physicians hope to effect a restoration to life and health with proper care. The other victims are improving, save Mrs. Long whose left side is paralyzed as the result of her hip injury, but it is thought this is a local condition and may be cured by the use of electricity. Her condition is such that she is expected to recover.

Councilman Rucker, uncle of the injured victim, this morning took initial steps to have the dangerous driveway from the beach closed to traffic and will present an ordinance to that effect at the next meeting. It has already been closed to traffic and was kept open because of the convenience to Pike and Strand merchants.

DIRECTOR RESIGNS.

Dr. A. T. Cover, for several years director of the Presbyterian Church choir, today sent his resignation as such to James D. Graham, chairman of the Music Committee. Dr. Cover says that he has labored for three years to bring the choir chorus to a successful point and now feels that the responsibility for its continuance should be given to some one else more capable.

Dr. Cover was lined up with those opposed to the choir, but in the final showdown he signed the exonerating resolution with the others. Now he retires from active work in the choir department of the church.

NEW COLLEGE PROPOSED.

Unusual interest attached to this morning's session of the Christian assembly because of the expected discussion of the educational topic of the Christian Church, and more specifically reports of the college committee of the Southern Sierra Power Company, of which the present Bible seminary at Berkeley is the initial unit, and which has been offered the southern assembly by their northern brethren.

Those who expected some cheering news relative to the definite selection of a site and the subscribed nucleus of a building fund were disappointed, as the committee were not ready to report, but instead asked that the matter go over a year, giving time for the completion of the plan.

The thanks of the convention were extended to the city of Long Beach for kindly placing the Forum at the convention's disposal, and to the musical band for its concert. Also to the Baptist and Presbyterian churches for the use of their houses of worship.

The convention also adopted the movement for a union of the temperance and prohibition forces of the state, looking toward the submission of an amendment to the State Constitution in 1914, prohibiting the liquor traffic, pleading their moral support for the effort, and their promise to aid in the adoption of the amendment if submitted.

Resolutions of sympathy were extended to those who were injured in the automobile accident of Wednesday evening, also with Dr. William Bayard Rustin of Redlands in his sufferings from a similar accident last winter, which resulted in greatly impaired health.

COMMEND W. J. E.

The convention also said that "the endeavor of our honored Secretary of State, William Jennings Bryan, to promote among all nations a plan for the peaceful arbitration of international issues, commands our highest respect and gratitude, and that we will invoke upon such effort the divine blessing; that the high standard of personal attitude toward the use of intoxicants by the President of the United States and his family, and by the Secretary of State and family, is hailed with respect and delight; that we congratulate our Baptist brethren upon accomplishing the great undertaking of giving to the world a complete translation of the holy scriptures demanded by the scholarly bodies to effect a federation of the churches in California, such as will be sufficient for the tasks that will test the faith and strength of the combined Christian forces of our State."

EL MONTE VISITS OCEAN.

Residents at Least Put Aside for Day and Pile on at Redondo Beach.

REDONDO BEACH, Aug. 1.—Practically all of the inhabitants of El Monte came here today for an annual outing. Every one but the postmaster was here, as all pleasure business was closed with the exception of Uncle Sam's office. The parade from the little football team marching in automobiles decked with El Monte pennants and paraded through Redondo to the beach.

July 31 has been declared an annual holiday for the town and the second town picnic, which many machines were in the El Monte parade.

NEWS BRIEFS.

The Nazarene Sunday-school of Los Angeles picnicked here today about 500 persons, including many of the Nazarene families. The minister, had the party charge.

The Ingleside Baptist Sunday-school held its annual outing here today and made the trip on a big truck. Bathing and other sports were enjoyed.

No word has been heard of Currie, the young girl who disappeared from the home of her mother, J. C. Haug, at the Catalina summer resort, Catalina, yesterday night. The girl was clad only in a nightgown, with a kimono over a woman, Mrs. Hazel Stewart, had secured a room at the Catalina through Gussie a month ago, and disappeared also, taking with her her belongings, and it is thought the young girl was with her. Mrs. Haug is in the city, and has been heard a man pacing back and forth under the window of the room that night and the police believe that the man was a woman and of the girl to leave.

For perfection in service and rapidity at Casino Club, Redondo Beach.

SEASON OPENS SATURDAY.

Ontario Plant of American Beet Company Will Work Full Force.

ONTARIO, Aug. 1.—The work of the huge whistle at the Chicago factory of the American Beet Company on Saturday morning announced to this section that the sugar beet season is once more open, and will sum to work an army of close to 500 men.

The season this year is somewhat earlier than last year, the work having ripened more quickly, and according to Manager John Schroeder, the crop for which the Ontario factory has been prepared for the past weeks bids fair to be a record breaker. The factory will continue to run full force for 150 days or more.

The hauling of beets to the factory has already commenced and for the past several days 125 men have been employed in the establishment of things in running order. Tomorrow the machinery will be set in motion in the morning and kept going day in and day out until the beets are hauled and the crop is in the hands of the factory.

Beets thus far put to the test have proved to be of superior quality, and the crop is said to be at least 10 per cent heavier than that of last year.

The company owns locally owned over 1000 acres of beets, but in addition to this great quantity are shipped in from other parts of the state, some having already been received. In the factory proper there will be employed between 150 and 175 men, but those employed in the fields and yards will bring the number close to 500.

TWO DAMAGE SUITS FILED.

Accidents in Which One Man Killed and Woman Injured Laid in Law suits.

SANTA ANA, Aug. 1.—Two damage suits were filed today in the Santa Ana court, one of which occurred at Duluth, November 8, 1915, and the other at Santa Ana on July 28, 1917, the productive of damage suits filed in the Superior Court today.

The first suit was filed by J. J. Fritts, a sugar factory employee, who was killed by a motorcycle, which was driven by a man named Paul Dominguez, who was riding a motorcycle when he was killed. The suit was filed by Fritts' wife, who was injured in the accident.

The second suit was filed by Josephine Fitch against George Moore of Westminster, a sugar beet grower and director of the Santa Ana Co-operative Sugar Company. The woman asks for damages, alleging that she was knocked down by Moore's automobile and was injured. The suit was filed by Fritts' wife, who was injured in the accident.

RAID "BLIND PIG."

PARADENA, Aug. 1.—[Exclusive Dispatch.] Chief of Police Mearns and a squad of policemen last night raided a "blind pig" operated by negroes, William Harris, No. 523 East Raymond avenue, Walter Hamilton of No. 417 East Raymond avenue, and a half of a gallon and two cases of beer were seized.

WESTERN LEANING TOWER.

SAN BERNARDINO, Aug. 1.—[Exclusive Dispatch.] The famous leaning tower of Pisa has nothing on the Southern California Hotel at Patton, where they have an immense concrete smokestack nearly 100 feet high, that is a foot and a half out of plumb, and gradually assuming a still more leaning position. It was built in connection with the power house recently erected for the institution and stands partially completed and the foundations are not large enough to carry the structure which was hardly finished before it began to settle. The structure has not yet been accepted by the State so it will have to be corrected by the contractor, a Chicago concern.

RAID "BLIND PIG."

EL MONTE VISITS OCEAN.

Residents at Least Put Aside for Day and Pile on at Redondo Beach.

REDONDO BEACH, Aug. 1.—Practically all of the inhabitants of El Monte came here today for an annual outing. Every one but the postmaster was here, as all pleasure business was closed with the exception of Uncle Sam's office. The parade from the little football team marching in automobiles decked with El Monte pennants and paraded through Redondo to the beach.

July 31 has been declared an annual holiday for the town and the second town picnic, which many machines were in the El Monte parade.

NEWS BRIEFS.

The Nazarene Sunday-school of Los Angeles picnicked here today about 500 persons, including many of the Nazarene families. The minister, had the party charge.

The Ingleside Baptist Sunday-school held its annual outing here today and made the trip on a big truck. Bathing and other sports were enjoyed.

No word has been heard of Currie, the young girl who disappeared from the home of her mother, J. C. Haug, at the Catalina summer resort, Catalina, yesterday night. The girl was clad only in a nightgown, with a kimono over a woman, Mrs. Hazel Stewart, had secured a room at the Catalina through Gussie a month ago, and disappeared also, taking with her her belongings, and it is thought the young girl was with her. Mrs. Haug is in the city, and has been heard a man pacing back and forth under the window of the room that night and the police believe that the man was a woman and of the girl to leave.

For perfection in service and rapidity at Casino Club, Redondo Beach.

SEASON OPENS SATURDAY.

Ontario Plant of American Beet Company Will Work Full Force.

ONTARIO, Aug. 1.—The work of the huge whistle at the Chicago factory of the American Beet Company on Saturday morning announced to this section that the sugar beet season is once more open, and will sum to work an army of close to 500 men.

The season this year is somewhat earlier than last year, the work having ripened more quickly, and according to Manager John Schroeder, the crop for which the Ontario factory has been prepared for the past weeks bids fair to be a record breaker. The factory will continue to run full force for 150 days or more.

The hauling of beets to the factory has already commenced and for the past several days 125 men have been employed in the establishment of things in running order. Tomorrow the machinery will be set in motion in the morning and kept going day in and day out until the beets are hauled and the crop is in the hands of the factory.

Beets thus far put to the test have proved to be of superior quality, and the crop is said to be at least 10 per cent heavier than that of last year.

The company owns locally owned over 1000 acres of beets, but in addition to this great quantity are shipped in from other parts of the state, some having already been received. In the factory proper there will be employed between 150 and 175 men, but those employed in the fields and yards will bring the number close to 500.

TWO DAMAGE SUITS FILED.

Accidents in Which One Man Killed and Woman Injured Laid in Law suits.

SANTA ANA, Aug. 1.—Two damage suits were filed today in the Santa Ana court, one of which occurred at Duluth, November 8, 1915, and the other at Santa Ana on July 28, 1917, the productive of damage suits filed in the Superior Court today.

The first suit was filed by J. J. Fritts, a sugar factory employee, who was killed by a motorcycle, which was driven by a man named Paul Dominguez, who was riding a motorcycle when he was killed. The suit was filed by Fritts' wife, who was injured in the accident.

The second suit was filed by Josephine Fitch against George Moore of Westminster, a sugar beet grower and director of the Santa Ana Co-operative Sugar Company. The woman asks for damages, alleging that she was knocked down by Moore's automobile and was injured. The suit was filed by Fritts' wife, who was injured in the accident.

RAID "BLIND PIG."

PARADENA, Aug. 1.—[Exclusive Dispatch.] Chief of Police Mearns and a squad of policemen last night raided a "blind pig" operated by negroes, William Harris, No. 523 East Raymond avenue, Walter Hamilton of No. 417 East Raymond avenue, and a half of a gallon and two cases of beer were seized.

WESTERN LEANING TOWER.

SAN BERNARDINO, Aug. 1.—[Exclusive Dispatch.] The famous leaning tower of Pisa has nothing on the Southern California Hotel at Patton, where they have an immense concrete smokestack nearly 100 feet high, that is a foot and a half out of plumb, and gradually assuming a still more leaning position. It was built in connection with the power house recently erected for the institution and stands partially completed and the foundations are not large enough to carry the structure which was hardly finished before it began to settle. The structure has not yet been accepted by the State so it will have to be corrected by the contractor, a Chicago concern.

Life's Gentler Side—Society, Music, Song and the Dance—The Theaters.

MOVEMENTS IN SOCIETY.

ANNOUNCEMENT is made of the marriage Thursday afternoon of Miss Laura M. Genwell of Freeport, Ill., and Herbert Drake of this city. The ceremony was read at the residence of Dr. W. H. Mills of No. 733 South New Hampshire avenue.

In This City. After a pleasant sojourn at Santa Monica, Mrs. M. M. Rittenband and daughter, Miss Ruth Rittenband, have returned to their home, No. 433 South Berendo street. On his return recently from an eastern visit, Mr. Rittenband joined his family at the seaside.

At Catalina. Mr. and Mrs. Emil Firth and daughter of No. 679 Westmoreland avenue left recently for Catalina, where they will pass several weeks at the Metropole.

Another Marriage. Miss Ruby Fern Hunter, at a simple though impressive service Tuesday, became the bride of Earl Knox Cuddeback, the lines having been spoken by Rev. Ernest Brommiller at the residence of H. D. La Grange, East Thirty-second street.

Dinner Party. Mr. and Mrs. Charles Edgar Game of Alhambra entertained recently with a dinner party celebrating the first birthday anniversary of their little daughter, Martha Marion. Pink hydrangeas and ferns graced the center of the table, also a cake ornamented with "Kewpie" dolls. The place cards marked covers for Mr. and Mrs. J. M. Van Norman, Mr. and Mrs. J. L. Buckner, Mr. and Mrs. J. L. Van Norman, Dean M. Van Norman, and Walter Van Norman. Mrs. Ringo delighted the guests with her singing following the dinner.

Dillon-Pierce Wedding. Announcement is made of the marriage of Miss May Pierce and George Dillon at the home of the groom's parents, No. 1608 Hobart boulevard. Rev. J. M. Schaefer performed the wedding service. Mr. and Mrs. Dillon are in Catalina. On their return they will reside in their new home on Chisholm boulevard.

At Soldiers' Home. Mrs. J. Herbert Walker, nee Daisy Migne of Plimore, Cal., daughter of Mr. and Mrs. E. W. Moore of the Soldiers' Home, and whose wedding took place here a month ago, is spending a week with her parents. Jean, another daughter, who not long ago married the bride of Lieut. W. T. Cade, U.S.A., now stationed at the Presidio in San Francisco, is also enjoying an extended visit at the home.

Miss Helen Barnett. Youngest daughter of Mr. and Mrs. P. Barnett of North Louise street, is at home from school for her summer vacation. Miss Leadith Hanley of Burbank is the week-end guest of Miss Helen Barnett. The rooms were artistically decorated with pink carnations, roses, gladioli and other fragrant flowers. Centering the dining-room table was a large basket of pink carnations and maiden hair fern. Favors were smaller pink baskets tied with white ribbon bows. Hand-painted cards marked covers. Miss Helen Barnett, youngest daughter of Mr. and Mrs. P. Barnett of North Louise street, is at home from school for her summer vacation.

Barnett of North Louise street, is at home from school for her summer vacation.

At Mt. Washington. Mrs. Louise Brock Boreman recently entertained with a dinner party at the Hotel Mt. Washington in honor of Anthony Carlson, who has just returned from the Hawaiian Islands. Shasta daisies were used to center the table and at each end a hand-arranged candelabra with yellow shades was placed. Hand-painted cards marked covers for Mr. and Mrs. Carlson, Mr. and Mrs. De Bruller, Mr. and Mrs. Ellis Rhodes, Mr. and Mrs. Charles Ketter, Mrs. Graham French, Miss Dinsmore, J. A. Anderson, Mr. Bronson and Vernon Spencer.

To San Diego. Mrs. Andrew Williams, No. 2253 West Thirtieth street, accompanied by her three children, has gone to San Diego for an outing.

LAST YIDDISH PERFORMANCE.

Jacob Gordin's "The Tree of Knowledge."

Adler, the Versatile Tragedian, as Strashun.

Rare Combination of Art and Business in an Actor.

BY HECTOR ALLIOT.

For the last performance of his remarkable engagement, Jacob P. Adler presented Jacob Gordin's "The Tree of Knowledge" at the Auditorium last night.

The drama is probably the best that the great Yiddish playwright has written; it is the most popular of his many works.

It combines with one central theme, a variety of actions which enhance and beautify the sociological influence of learning from books by humble and simple people, and the result of misadventure toward intellectualism devoid of moral and ethical ideals.

Relieved by more comedy than usual in Gordin's somber and powerful tragedies, one could follow the unfolding of the upright, hard working carpenter Moria Strashun, who sacrificed his pleasure, his life, that his son and daughter might acquire that precious gift of education, which to the uneducated craftsman is more valuable than wealth.

Strashun is blind to the shortcomings of his son, so eager he becomes to see him acquire knowledge. He is unable to see the downfall of his only daughter, the money-grabbing propensity of his son-in-law to be. They are all educated, beings made of a different clay than he.

The old carpenter extends a helping hand to the poor, assists a friend in distress and shows himself a friend to the underdog. He is a man of unassuming moral attainments and homely philosophy; he remains deaf to what he hears himself, a degraded progeny, blind to its worthlessness.

Because he cannot pay his daughter's dowry, having loaned his money to help a friend out of a financial difficulty, the son-in-law refuses to take her for wife.

Strashun's daughter, who has tasted of the fruit of forbidden knowledge, aided by her own brother, falls still lower and becomes the mistress of a Russian general. The old carpenter, broken-hearted but loving, takes his own life and disowns his son, realizing the fallacy of the too sudden climbing of the tree of knowledge.

Jacob P. Adler was admirable in the main role, and was happily assisted by Sarah Adler, Adolph J. Joseph, Joseph Schoenberg, Samuel Tobias, Mrs. Epstein and Mr. Rubin.

A very large audience had come to aid farewell to the great actor and his stars. Flowers and enthusiastic applause were the features of the closing of each act.

It is rare to see such an assemblage as the one that filled the Auditorium last night. It can be seen only at Yiddish performances, which constitute the only popular amusement of most members of our Yiddish colony.

There is a rare charm in witnessing a vast assembly, mostly composed of young men with their parents, often their grandparents, who follow with intense fervor every move of the actors, drinking every word that falls from their lips, laughing, crying in unison with the players.

For the Yiddish people the dramatic action is real; it is life. One might also say it must be life to attract them. This dramatic feature of Yiddish acting is the most striking, and far in advance of our own make-believe realism, which so often falls short of reality.

The dominant figure in the presentation of the Yiddish drama is Jacob P. Adler.

His make-up is so excellent, he enters so thoroughly into the spirit of his personage that night after night the audience waited to hear his voice before applauding him on entering, so uncertain as to whether the part was taken by Adler himself.

This is the highest compliment an actor can receive.

Adler's mastery of the histrionic art was shown in his brilliant impersonations of an aged rabbi, a broken-down savior, the degraded and youthful Portuguese aristocrat, the feeble-minded "wild man," the scientific Dr. Goldweiser, the philosophic carpenter living actor, and the great Italian tragedian, of whom he has the somberness, for he seldom laughs; there is much gloom of Manfred and of Coquelin. Jacob P. Adler is a very great actor. It is a pity that, as he speaks English well, he has not long ago entered the ranks of American players, as he would have won a leading position on our own stage.

There is a reason for it, however, and a most excellent one. Adler, the actor, is also a Yiddish captain of the theater, his industry, his ambition, his tremendous, his business sense of the keenest. Adler, the business man, capitalized Adler, the actor. Gradually but intensely his will of iron, his keenness and foresight have added to his theatrical genius, made him the master of the Yiddish theater in America.

Jacob P. Adler, Great Yiddish tragedian.

Ready for Business.

BIG PLANS ANNOUNCED FOR HIPPODROME OPENING.

BY GARDNER BRADFORD.

PRESIDENT ACKERMAN and Vice-President and General Manager Sam Harris of the Western States Vaudeville Managers' Association, came to town yesterday and after a long stay in the city, announced the opening of the big new Hippodrome on Main street, between Third and Fourth, the date being Labor Day.

We made an inspection of the new theater yesterday, and it really is all new excepting the outer shell. There is a huge gallery, you remember, I told you about the wonderful support girder the other day, and when everything is finished the seating capacity will be 2600.

And the policy as announced yesterday is to be 10 cents straight all over the house, including the boxes. And for this 10 cents absolutely the greatest vaudeville and hippodrome show is promised, with at least nine acts, and super acts two, with a practically continuous performance from 1:30 o'clock or 2 o'clock in the afternoon till 11 o'clock at night.

On top of this announcement I stumbled across Oliver Morosco, looking sheepish and very guilty and when I asked Mr. Ackerman if he could give me an idea of his attractions, "I would rather the public would see for groups in festive attire, for all managers are prone to make that statement in advance, but I will say this: We have a splendid circuit, all of our houses are over 2500 capacity, which enables us to take in more money every day than any other theater on the Coast, and we can afford to give the best for the least."

"Melbourne McDowell with his superb 'La Toca,' I think will be on the Labor Day, bill and we have others equally as great. Many of the acts which are now playing the Orpheum, Empress and Pantages time are of our booking and will play our own house this fall instead of the others."

And coming from Mr. Ackerman this rings true, for he happens to be one of the directors of the Orpheum circuit, which his father was instrumental in building.

THE TIMES CIRCULATION FOR JUNE, 1913.

STATE OF CALIFORNIA, COUNTY OF LOS ANGELES.

I, T. L. CHAPIN, do hereby certify that the following is a true and correct statement of the circulation of said newspaper for the month of June, 1913.

I buttonholed him he confessed that he "had gone and done it again."

"What," I demanded, not tumbling. "Well," he said, "It's a new song. We had to have another for 'The Girl in the Taxi' as I wrote it myself." So now I don't know whether to take in that opening or not. On second thought, seeing how well "Oh, Take Me" is doing in "Madame Sherry" I think I will.

Was just interrupted, and had to run down to the Los Angeles Athletic Club to see Joe Montrose, manager of the Majestic, and Billy Ervest, treasurer of the Burbank play pool. When I demanded the score Montrose said "67.8 going south" and then proceeded to make the first run of fifteen he ever made in his life. They Ervest retaliated and I fled.

NARS EIGHT IN MELON PATCH.

Stockton Farmers Guards Field with Rifle and Gathers in Darling Motorcycles.

(BY DIRECT WIRE TO THE TIMES.) STOCKTON, Aug. 1.—[Exclusive Dispatch.] The weekly pilgrimage of eight well-known young men of this city to the watermelon field of Edward Powers, a prominent Hanteca farmer, resulted in complaints being filed today. The defendants are Harry Riba, R. Evans, Joe Sears, William Franklin, Harry West, Carl Hayne, Floyd Rhodes and Lester Cary. The boys are charged with destroying growing crops.

It seems that the farmer began to miss his melons several days ago, so last evening, armed with a gun, he concealed himself in the field to watch for the offenders. He had wait but a few moments. Four motorcycles emerged from the rather-

ing shadows and eight young men dismounted and wended their way into the field.

The farmer waited until they had seated themselves preparatory to the feast and then he covered them with his rifle and escorted them to the road. Today he swore to complain.

MORE THAN ELEVEN A DAY.

Three Hundred and Fifty-five Corporations Chartered by Secretary Jordan During July.

(BY A. P. MONTGOMERY TO THE TIMES.) SACRAMENTO, Aug. 1.—Three hundred and fifty-five domestic and foreign corporations were organized or admitted to do business in California during July, according to a statement filed today by Secretary of State Jordan.

Of the total capitalization, \$1,245,196 is represented in the incorporation of 266 domestic corporations as "profit" corporations. The remaining \$4,094,960 in capitalization represents the total stock authorized in fourteen foreign companies admitted to do business. Five "non-profit" domestic corporations were organized during the month.

Disappearance of Tree Sprites.

[The Pathfinder.] Plants, as well as animals, may become extinct after they have been quite well distributed over the earth. The western ironwood, which is now confined to a few small islands off the Southern California Coast, is said to be the rarest plant now found in America. Another very rare species is the Torrey pine, which is found only on a short strip of coast near San Diego and which is the nearest extinction of any American.

Climatic changes will probably long force these rare species out of existence, though they were once so abundant.

CHERRY MURDER IS CLEARED UP.

Jack Drumgoole Makes Clean Breast of the Crime.

Woman Offers Money but Pleads Vainly for Life.

Confession Involves Girl Who Will Also Be Tried.

[BY A. P. NIGHT WIRE TO THE TIMES.]

SACRAMENTO, Aug. 1.—"Take all the boys, but don't kill me. God bless you!" These were the last words of Cherry de St. Maurice, Sacramento's Tenderfoot queen, who was arrested by Jack Drumgoole and Sam Rader, in the Cherry Club on L street, the morning of July 8, according to a confession made to the Sacramento authorities today.

Drumgoole said "We went into the Cherry woman's room to rob, not to kill her."

The robbery, Drumgoole said, was planned by Sam Rader, himself and the Stirling, one of the inmates of the Cherry Club.

After the plan to rob Cherry was formed, Drumgoole and Rader went to the Stirling's room and "made up" the role they were to play. They dressed their faces to appear as women so that Cherry would not recognize them. Cleo Stirling helped them to "blacken up."

"I held Cherry and Rader wrapped her mouth up so she couldn't make a sound," Drumgoole said.

"We killed the woman," Dist. Atty. Wechster asked.

Drumgoole made a complete confession to the District Attorney upon arrival with Rader from San Francisco, in custody of officers today.

Drumgoole, Rader and Stirling, who had been charged with the murder, were taken to the County Jail today.

RENO FEARS TRUCKEE GERMS.

River Said to Be Boiling With Typhoid Bacteria and Health Experts Warn People.

[RENO (New.) Aug. 1.—(Exclusive Dispatch.)] That typhoid fever germs lurk in the muddy water of the Truckee River, and persons who use that water for cooking or drinking do so at the risk of contracting the dread disease, is the gist of a statement made in the way of warning yesterday by Dr. C. H. Mosser of the city Board of Health.

Dr. Mosser states that there are twenty-five cases of typhoid fever at Truckee, according to reports he has received from that town. The Truckee River and must of necessity be conveyed to Reno. Analysis of the water since it assumed its muddy state has been made by Dr. O. P. Johnston of the State University and disclosed the presence of bacteria. The fact that the river is reeking with mud and other filth also makes it dangerous for use without boiling.

Dr. Mosser says that, according to reports made to the Board of Health, fish are emerging from the hydrants in the northern section of the city. Reports coming to the board are that the fish are dead, but that occasionally live fish are found.

Assays on Ore from Cinnabar City, Nev., Indicate that Mines Will Be Quicksilver Producers.

[RENO (New.) Aug. 1.—(Exclusive Dispatch.)] Assays of ore from the Cinnabar City quicksilver properties, made in this city, show that the rock runs from 12 to 13 per cent in mercury. Seven samples were taken from a twelve-foot vein in the Douglas, Booth, Earle, Maier and Wales property, the original location.

The ore is in a lime formation and has neither grain nor money to pay back, but has movable goods, he shall give whatever he has to the merchant in the presence of witnesses according to the king's law relating to bankruptcy runs.

"If a man has borrowed grain or money from the merchant and has neither grain nor money to pay back, but has movable goods, he shall give whatever he has to the merchant in the presence of witnesses according to the king's law relating to bankruptcy runs."

Another law, dealing with interest, says: "If the merchant lends grain on interest he shall take one-fifth of a ker of grain for each ker as interest. If he lends money on interest he shall take a sixth and six grains of silver for each shekel as interest."

This required borrowers to pay interest at the rate of 20 per cent. Another law provided that if a merchant charged compound interest he should lose the principal and six times the amount of interest as forfeit.

A borrower who had been robbed and had nothing with which to pay was compelled to go to the temple and take oath to his losses after which he was given freedom.

The tablet was found at Susa by M. de Morgan, a French archaeologist, and brought hither by a university expedition that made extensive excavations at Nippur, a ancient city of Babylonia. Dr. Arno Poebel of the university of Breslau deciphered it.

Redondo Beach Youngster Assimilates a Piece of Jewelry With No Apparent After-Effects.

REDONDO BEACH, Aug. 1.—Although the little five months' old son of Mrs. E. M. Hammond of Porterville, who is stopping at the Elk Hotel, swallowed a gold stickpin three inches in length, last night, the baby is happy and well today as though a diet of stickpin were as digestible as milk.

When the mother discovered that the baby had swallowed the pin which was distracted and at once called Dr. A. T. Hembree, by whose aid the pin was recovered. It is considered remarkable by the physician that the pin was recovered by the long point. The only bowels of the child were not periled by the pin, which was the scratching of his throat.

NEWS BRIEF.

The annexation of Belvidere and the Redondo Villa tract, east of here, are to be taken up by the Board of Trade. A committee composed of R. C. Fritz, W. T. Fitzpatrick, and Senator George M. Craig, was appointed last night by the directors of the board, to take up the matter.

A committee comprising Leon Sterns, R. C. Fritz and Harry Brodsky was appointed by the directors of the board to represent this beach in the movement to secure a 25-cent rate to the beach. A mass meeting will be held in Blanchard Hall Tuesday night concerning the fare question.

Legislative Procrastination.

[The Argonaut.] We hear a good deal of scientific management in business, but who will say a good word for scientific management in legislation? A Chicago newspaper thus analyzes the work of the Illinois Legislature: Electing a speaker, three weeks; idleness, one week; electing two United States Senators, five weeks; attending the Wilson inauguration, two weeks; organizing a "getting down to business" two weeks; committee hearings and reading of bills, four weeks; passing 25 per cent of its bills, four weeks; passing 75 per cent of its bills, two weeks. A ten-dollar-a-week messenger boy would do it better.

Now if the Illinois Legislature may pay itself \$1500 a day for doing nothing at all or for mischief. Now if the Illinois Legislature had adjourned before reaching the bill-passing stage the evil would have been somewhat minimized. But that is just where the aggravation of the offense is to be found. It actually passed the bills, and now the whole State has to suffer.

A Non-Temperance Drink.

[Pearson's Weekly.] An amusing story is being told of a clergyman who was being entertained over a week and by one of the well-to-do, but plain men of a Lancashire town not far from Manchester.

As soon as the guest was settled by the friendly Sunday evening his host asked him: "Are you a teetotaler?"

"Well, no; not exactly," the clergyman admitted.

The master of the house received the statement with obvious relief. "Ah! right glad to hear it," he said; "we had that sort stayin' with us afore. Now, if you'd been one of them teetotalers, you'd 'a' been wantin' soda water and lemonade and lime juice and gingerale and nobody knows what all. But as you ain't a teetotaler you'll be like the rest of us, an' satisfied wif plain water!"

Successful Business.

[Topeka State Journal.] The late Henry M. Flagler is said to have got the ideas which were the foundation of his success in life while clerking in a grocery store. In the cellar there was a keg of brandy, which was a veritable magician's keg. In the neighborhood there were three separate communities—English, German and Pennsylvania Dutch. Out of that little keg the English bought brandy at 14 a gallon, the Germans paid \$1.50 a gallon, and the spirits were sold to the Pennsylvania Dutch for what the clerks or the proprietor could get.

SWALLOWED A STICKPIN.

PUT A BANK IN RIVERBANK.

CHARTER FOR A NATIONAL.

[BY A. P. NIGHT WIRE TO THE TIMES.] STOCKTON, Aug. 1.—Announcement was made today that application for a charter to open a first national bank at Riverbank (Stanislaus county) had been granted. This is the first time in California that a town of only 600 inhabitants has been granted a charter for a national bank. The bank is capitalized at \$15,000.

FATHER FEARS HYDROPHOBIA.

BITTEN BY HIS OWN CHILD.

[BY A. P. NIGHT WIRE TO THE TIMES.] BOWMAN, Aug. 1.—(Exclusive Dispatch.) Ed White of Bowman, who lost his only child, Florence, at New-castle recently by hydrophobia, from the effects of a rabid dog's bite, has gone to Berkeley to take the Pasteur treatment. Before her death the little girl became violent and accidentally bit her father on one hand. White made two trips to Sacramento for treatment and was advised to take further treatment at Berkeley.

ANCIENT BANKRUPTCY LAW.

A Four Thousand Years Old Tablet that Contains the Germ of All Modern Enactments.

[Detroit News:] An archaeological discovery of great interest to all scholars is announced by the Museum of the University of Pennsylvania. It is a shattered tablet, on particles of which, pieced together, are inscribed many of the missing laws of the code of King Hammurabi, who reigned in Babylonia at a period estimated about 2100 to 2300 B. C.

Most of the laws deciphered refer to financial transactions. One contains the germ from which perhaps sprung all bankruptcy laws of the last 4000 years.

The king's law relating to bankruptcy runs: "If a man has borrowed grain or money from the merchant and has neither grain nor money to pay back, but has movable goods, he shall give whatever he has to the merchant in the presence of witnesses according to the king's law relating to bankruptcy runs."

Another law, dealing with interest, says: "If the merchant lends grain on interest he shall take one-fifth of a ker of grain for each ker as interest. If he lends money on interest he shall take a sixth and six grains of silver for each shekel as interest."

This required borrowers to pay interest at the rate of 20 per cent. Another law provided that if a merchant charged compound interest he should lose the principal and six times the amount of interest as forfeit.

A borrower who had been robbed and had nothing with which to pay was compelled to go to the temple and take oath to his losses after which he was given freedom.

The tablet was found at Susa by M. de Morgan, a French archaeologist, and brought hither by a university expedition that made extensive excavations at Nippur, a ancient city of Babylonia. Dr. Arno Poebel of the university of Breslau deciphered it.

Public Service: City Hall, Courts.

SUMMARY OF THE DAY.

The Harbor Commission decided yesterday to appeal to the people to subscribe for harbor improvement bonds in small denominations, in order to provide immediate funds to carry on needed work at the port. The subscription lists will be opened next Wednesday and bonds will be offered in denominations of \$50 to \$1000. They bear 4 1/2 per cent. interest, payable semi-annually.

The city Board of Equalization completed its work yesterday noon but the actual result as to additions to the tax rolls will not be determined for several days. Charitable organizations are assessed for the full amount placed by the City Assessor, but those deemed worthy may receive refunds from the City Council after their work has been duly investigated.

Residents of Vernon yesterday appealed to the Council to suppress the alleged nuisance of the nightly meetings of "Holy Rollers" in that vicinity.

The playground department yesterday safely returned to the city the last contingent of 14 boys that have been in the summer vacation camp in San Gabriel Canyon and today will send fifty girls to the camp.

Judge Monroe yesterday gave the wife of a disbarred attorney a check for \$30 after she had testified that her husband had not supported his two little children. The mother supported them by washing, and testified they had nothing but bread and milk, and not enough of that, to eat for two weeks.

At the City Hall.

ASKS PUBLIC TO PURCHASE BONDS.

HARBOR BOARD WOULD SELL HALF MILLION WORTH.

Money Needed at Once to Raise Timms Point, Complete Municipal Docks and Reclaim Submerged Acreage and Construct Slips. Subscriptions to Open Next Week.

The Harbor Commission will appeal to the public to take at least \$500,000 worth of the \$1,500,000 harbor improvement bonds by popular subscription, in order that money may be available immediately to carry on the work urgently needed at the port of Los Angeles.

The money is desired for the purpose of raising Timms Point, reclaiming the submerged acreage adjacent to the municipal dock No. 1, completing docks and constructing slips, building freight transit sheds.

The commission proposes to open subscription lists on August 6, and to take subscriptions for bonds in the denominations of \$50, \$100, \$250, \$500, \$1000. The bonds pay 4 1/2 per cent. interest. The interest is payable semi-annually.

President F. T. Woodman yesterday issued the following statement: There is an imperative demand for funds for construction work at the harbor at the present time. By present time, I mean the right to the financial situation of the country today is such that municipal securities in large blocks are not readily disposed of and the indications are that the financial centers will be in position to handle our bonds for some months to come.

These facts exist, it remains for the people of Los Angeles to assist us solve the problem. Development work at our harbor MUST NOT BE DELAYED. The Panama Canal will soon be open and in order to reap the full benefit of the reaping of the great circle of trade, when the routes between the Occident and the Orient are connected by the canal, we must push the work on which we are now engaged.

Motor truck connection must be provided; freight sheds must be built; the railroad situation must be adjusted; dredging in both inner and outer harbors must be continued.

A number of cities in the East have absorbed their bonds, issued for municipal improvement, and the people of Los Angeles will undoubtedly meet the situation that now confronts us.

The bonds are the best possible security, drawing 4 1/2 per cent. interest, making a very desirable investment for people seeking a fair rate of interest with absolute safety.

Board's Work Done.

The City Board of Equalization for the fiscal year 1912-14 adjourned sine die at noon yesterday. The actual results as to additions to the tax rolls will not be determined for several days, as the City Assessor will have to carry forward his adjustments before this is fully determined. The board considered 381 cases.

Councilman Wheeler, through whose activities 100 persons were cited to appear to show cause why their assessments should not be raised, stated yesterday that he believes at least \$25,000 have been added to the rolls through these investigations, forty-four of the 100 cases being given raises in assessments.

Just before the board adjourned it revoked its former actions in making nominal assessments on properties of charitable organizations, and authorized the City Assessor's original figures to stand. In all cases where there was an appeal for a reduction, however, the City Council will make investigations, and in such as are deemed worthy they will order refunds to be made.

Will Investigate.

City Attorney Stephens informed the City Council yesterday that he would not undertake to pass upon the question as to whether a suit should be instituted against Fred Eaton as to ownership of Owens Valley lands, until he has thoroughly investigated the entire subject and made a personal inspection of the properties involved in the controversy.

FOR GIBBER RAIL.

The Municipal League raises objection to the proposed ordinance that would place in the hands of the Board of Public Works discretion to authorize the maintenance in public streets of car tracks of types of rails other than provided for by the city ordinance adopted by a vote of the people in 1911—the stider grooved rails.

have been paved since the tracks were laid, that do not conform to the requirements of the ordinance approved by the people.

The corporation representatives contend that these rails are in good condition and would be serviceable for several years, and that the railway should not be compelled to relay them until they are in such condition that they should be replaced. The Public Utilities Commission has declared that it believes it would be an economic waste to require the relaying of such tracks at present.

The Municipal League yesterday sent to the City Council a protest on this point against section four of the ordinance now pending, which reads as follows: "Provided, that the Board of Public Works may, in its discretion, authorize in writing the maintenance in such streets or other public places of rails of standard size and first class condition and of type other than such grooved girder rails, and which have been laid and were in use in such streets or other public places prior to the time this ordinance became effective."

From Myrtle to Trinity.

Property owners on Myrtle street have petitioned the City Council to change the name of Myrtle street to its full length to Trinity street, with which it connects. Trinity street is a long thoroughfare, while Myrtle street is a short street and frequently is confused with Maple avenue, because of a similarity somewhat in the sound of the two names.

Dislike "Holy Rollers."

Residents of Forty-second and Fifty-third streets and Vernon avenue, between Central avenue and Hooper street, filed a petition to the City Council yesterday asking that it banish the alleged nuisance in the nightly meetings of the "Holy Rollers," who hold religious services at No. 1162 East Forty-third street. Complaint is made that these meetings begin at 7:30 o'clock in the evening and continue to 11 o'clock, and that the groans, yells and shrieks of the participants prevent residents in the vicinity from sleeping and constitute a general nuisance.

State Asks for Permission.

The State Department of Engineering yesterday filed a request to the City Council for permission to improve by private contract Exposition boulevard, from University avenue to Thirty-sixth place. This is a part of the general plan for the improvement of Exposition Park and its approaches.

Opportunity Escaped.

A new field for a city ordinance—one never entered before—has been discovered. The Phillips Heating, Ventilating and Manufacturing Company yesterday appealed to the City Council to draft an ordinance to provide for the installation of gas furnaces and venting of the same, there being no ordinance at present applying to gas furnaces.

Money for Fire Escapes.

After seven years of effort, Chief Inspector of Buildings Backus has succeeded in convincing the managers of the city's finances to provide for the placing of two fire escapes on the city hall, in order to safeguard the lives of persons employed to work in the attic. The new budget contains an item of \$600 for this purpose. The fire escapes will be placed on the north side of the building. Many attempts have been made heretofore to secure fire escapes, but all failed.

Camp Is Successful.

The playground department returned to the city yesterday its second crowd of boys who have been taking advantage of the opportunities of the summer vacation camp maintained by the Playground Commission in San Gabriel Canyon. The boys, who have been guests of the camp this season, and some of them were so delighted with the recreation they have already entered applications for admission next year. Today's company of fifty girls will be taken to the camp in charge of Miss Bertha Bergstrom, director, and Miss Alma Wilson. After a two weeks' outing, they will return and fifty more girls will be taken to the camp.

Resolution on Extensions.

Commissioner Handley will present at the Board of Public Works meeting a resolution definitely committing the board to no extensions of time to street contractors hereafter, except in such cases as were entirely beyond the control of the contractors. Printed slips are to be attached to the contracts when they are signed by the contractors, definitely setting forth this provision, so that there need be no expectation of extensions of time simply because the work has not been pushed ahead with due diligence.

Spoiled Fish His Undoing.

Andrew Long may no longer collect rubbish with the approval of the city authorities. He has held a rubbish collecting permit which was revoked by the Board of Public Works yesterday, when Inspector of Public Works Hansen reported that Long had been tried and convicted of throwing decayed fish upon the public streets and on private properties.

May Construct Crossing.

The Board of Public Works received notice from the State Railroad Commission yesterday that it has granted permission to the city to construct a crossing over the Southern Pacific tracks at grade at a point opposite the United States station No. 415. This is to give access to a continuation of Pries street, reaching to the water front. The crossing must be at least thirty-six feet in width and improved in the same manner as the remainder of the street.

City Hall Brevities.

The Harbor Commission has had general orders from dredging concerns to furnish the city a dredger and pump to clear the harbor improvement bonds to provide money for the payment. The commission will ask for definite offers and take the subject under consideration, as it feels that the city would do well to purchase a dredger to keep engaged on harbor work.

Members of the fire and police departments feel that the placing of pensions at one-third the salary of the pensioner at the time his retirement is unjust, and it is probable that the two departments will send a joint delegation before the City Council to make protest.

The City Engineer estimates that the cost of underpinning the channel piers of the First-street viaduct across the Los Angeles River will be \$4660. The Board of Public Works asks the City Council for permission to advertise for bids for this work, so that it may be done before the rainy season arrives. Provision for this work is made in the city ordinance.

At the Courthouse.

JUDGE, WEeping, LEAVES BENCH.

GIVES ATTORNEY'S DESISTANCE WIFE PERSONAL CHECK.

Husband Disbarred, Woman, Complaint in Failure to Provide Suit, Tells Pathetic Story of How Children Subsisted on Bread and Milk for Two Weeks.

As Mrs. Sallie Wright was testifying yesterday at the preliminary hearing of her husband, a former attorney, Joseph W. Wright, whom she charged with failure to provide for his two little children, she broke down and sobbed. Judge Monroe, who was hearing the case, pulled out his handkerchief, left the bench, and hastened to her chambers.

When he returned he handed Balliff Jack Berda a slip of paper, with instructions to give it to Mrs. Wright, who was still sobbing. It proved to be a check for \$25.

Mrs. Wright told a pathetic story. She said her husband, who was disbarred from practicing a few months ago, had done nothing for the children for two weeks. During that time she supported herself and the little ones by washing. She said, "I have had nothing to eat but bread and milk, and not enough of that."

"Ordinarily this would be a case for the county charities," said Judge Monroe, "but this seems to be a case which demands prompt attention. I'm not doing this out of regard for you," he said, turning to Wright, "but if you have any manhood, you will owe this to me. I don't want you to pay a cent until your children have plenty to eat and are well."

The case was stricken from the calendar and Wright departed, declaring he would support his children hereafter.

INFERENCE.

WOMAN'S FAREWELL. In a letter of farewell last night, Ruth La Petra to her husband, Everett E. La Petra, of Glendora, she hinted that her love had been bought.

In spite of this inference, La Petra was granted a divorce yesterday by Judge Monroe. Mrs. La Petra was denied a divorce in a general way, answered the description of the bandits who held up a young man and woman near Greening several nights ago. A deputy sheriff is investigating.

Out of Kindness.

A largely case against Feliciano Trego was dismissed yesterday in Justice Sumner's court. The complaining witness, Marie Gonzalez, declared that the defendant in her sweethearts and took her money out of kindness. Deputy District Attorney Graham felt there was nothing to do but dismiss the case. The court agreed with him.

FEES PETITION.

County Counsel Finishing the Draft to the Supreme Court in the Sheriff's Case. County Counsel Hill has nearly completed the petition to the Supreme Court for a writ of mandamus to compel Sheriff Hammet to pay his fees into the county treasury. If this action is successful it is believed the County Clerk, Recorder, Treasurer and the constables will pay over their fees without legal proceedings.

In fact, the proceedings against the Sheriff are merely to have a final decision whether the fee system is legal or not.

The Supervisors except Norton approve of this course. Norton stated he believed special counsel ought to be employed.

"I hope lawyers interested in this test case will file briefs," said Hill yesterday. "It is an interesting point of law, and it will decide whether county officers can continue collecting fees for their own benefit or whether they shall pay them into the treasury."

GIRL AND MAN INJURED.

Chase by Motorcycle Officer Ends in Crash at Nineteenth and San Pedro streets. James Buck, No. 324 South Hill street, and Miss Edna Stanley, No. 185 North Hill street, were taken to the Receiving Hospital yesterday and given emergency treatment after having been injured in an automobile accident at Nineteenth and San Pedro streets.

The accident followed a chase by a motorcycle officer while the machine was returning from Vernon. The officer overtook the party and was standing talking to them when the car started. The basic principle underlying the method employed in the contraction and expansion of gas.

The machine collects the caloric energy of the air, which is inextinguishable, and transforms it into mechanical energy. The air is supplied automatically and the apparatus is in continuous motion by reason of the passage of the gas from the warmer atmosphere to the colder water.

Perpetual Motion in Gas.

(New York Herald.) Tests have been made before scientists at Turin, Italy, of a machine invented by a mechanic named Florio, by which it is said perpetual motion is demonstrated. The machine principle underlying the method employed in the contraction and expansion of gas.

NOW TO FEDERAL BENCH.

When Judge Morris T. Dooling of San Benito county adjourns court in extra session one this afternoon he will have finished his career as a judge of the Superior Court of California. He will leave tomorrow for San Francisco, where he will take the oath of Judge of the United States Circuit Court for the Northern District of California.

He was appointed to the Federal bench by President Taft in 1907, and his confirmation by the Senate was received several days ago. During the last three years Judge Dooling has presided in this county more than any other outside judge. In that time he has heard over 500 cases.

CHARGE PLOT.

STOCKHOLDERS IN SUIT. Six stockholders of the Crystal Salt Company petitioned yesterday for an injunction to restrain W. K. Reese, Sen., from disposing of the company's property to the Consumers' Salt Company. The former concern is capitalized at \$200,000. With Reese, M. L. Doran, I. W. Bull, the Crystal Salt Company and the Consumers' Salt Company defendants. The plaintiffs are L. B. Jones, Charles

kins, R. P. Hillman and P. W. Powers. They charge the defendants, all of whom are officials, of trying to wreck the Crystal company to their own advantage.

WATER RIGHTS.

TEJUNGA CANYON SUIT. Valuable water rights in the Tejunja Canyon are involved in the suit of L. B. French against A. M. Secor and several other land owners in the valley, submitted to Judge Craig in the Superior Court yesterday. Judge Craig is recognized as an authority on water rights and irrigation, and teaches the subject of water rights at the College of Law, U.S.C.

MURDER SAVES HIM.

Wife Slain by Affinity, Burglar Gets Light Sentence and Advice from Judge.

Because of the murder of his wife by her affinity some months ago, Anson P. Riddle, who was convicted of burglary, was given but one year in San Quentin yesterday.

Judge Oster said he took into consideration the fact that Riddle came of good stock in the East and that he was a life-saver. He probably had much to do with his course of life. He urged the prisoner to go to the penitentiary with a chastened spirit and observe the rules in spirit as well as in the letter.

Riddle entered a house on Georgia street. He was shot through the neck and was in the hospital for several weeks.

END IN SIGHT.

The county grand jury considered the referendum petition once more yesterday, but was not ready to make any report. It is believed the investigation will end Monday.

Salary Petition.

Nothing new was heard here yesterday regarding the plan to appeal from the refusal of the Appellate Court to compel the County Clerk to check up the supplemental list. It is not believed by the county officials that the referendum coalition have been bluffing from the first.

Trio of Highwaymen.

Three young highwaymen held up Y. Japans, a Japanese peddler, near Shorb and Main streets, early yesterday morning, according to a report made to the Sheriff's office. The young men, in a general way, answered the description of the bandits who held up a young man and woman near Greening several nights ago. A deputy sheriff is investigating.

Bakery Goods

—Buy your supply for over Sunday tomorrow morning—store closes at 1 o'clock. Prompt attention to phone orders.

Ramburger's
Broadway, Eighth and Hill Streets

In the Cafe Beautiful

—Saturday morning in the Cafe Beautiful—full breakfast—dinner—lunch—August.

Store Closes at 1 o'Clock Today
A Day's Activity Crowded Into a Half Day

—In order that selling records may not lag behind, every minute of the four hours the Great White Store is open must "count double." Values irresistibly strong—and a marvelous array of them—that's the means we've provided to accomplish a full day's selling record in a half day.

—Look over this list of items and note how many match the purchases you are planning! And remember that a host of others vainly clamoring to be mentioned. Make the most of these half-day opportunities!

Men's \$14.00 Outing Suits \$9.35

Blue Serge Coat, White Serge Trousers

—An especial economy attraction, featured for a half day's selling today. The popular outing and pleasure suit—soft blue serge coat, half-lined with firm silk and white serge trousers, excellently tailored to fit and retain their shape. Just think of the saving on this combination for mid-summer and early autumn wear. Sizes for men of every type, too—stouts, longs, slims and regulars. Better see them early—one of the season's best values in outing suits.

—More economies for men—opportunities for mean unusual savings—

\$5.00 Men's Pure Silk Shirts . . . \$3.50

\$3.50 Men's Silk-mixed Shirts . . . \$2.50

50c Men's Silk Hose, plain colors, . . . 25c

\$6.50 and \$7.50 Straw Hats . . . \$4.50

(Hamburger's—Men's Store—Main Floor)

Linen and Ratine Dresses \$3.50

\$5.95 and \$7.50 One and Two-piece Styles

—An uncommonly attractive collection of tailored and trimmed models in chic one and two-piece styles. Just 135 frocks in the lot—broken lines of especially popular styles—one or two of a kind, in most instances—pink, blue, tan, lavender and the much demanded white. Sizes range from 16 to 44, and we cannot too strongly urge the making of early selections. Values so extraordinary as these will make a swift outgoing. Be here while you can find your size in the style that you prefer! Every detail of quality, cut and workmanship will win your thorough approval—they're the summer's most fashion-favored styles.

Girls' \$2.50 to \$3.00 Dresses, \$1.95

—Smart frocks of blue, pink, tan and white rep and of gingham and percales in a pleasing variety of plaids, polka dots and stripes. Sizes 13, 15 and 17 for juniors, sizes 6 to 14 for girls. An extraordinary opportunity to save on the sort of frocks the discriminating mother likes her daughter to wear. They'll create a deal of interest this morning! A saving worth coming down town early for today.

(Hamburger's—Junior Section—Second Floor)

\$2.75 and \$3.00 Wash Skirts, \$2.25

—Smart skirts of cotton Bedford cord and corduroy, in scores of different designs, with every detail of their making as carefully done as the most critical could ask. Just the thing to wear with your summery blouses. You'll want one or more to wear on your beach outings—just think of the saving!

(Hamburger's—Apparel Salon—Second Floor)

REPORT DISCOURTEOUS.

Heated Words Pass Between Witnesses Before State Railroad Commission in Water Inquiry.

Bad blood developed yesterday in the State Railroad Commission's inquiry as to the reason the Hermosa Beach Water Company and Dr. Quintin J. Rowley had not complied with the commission's order urging betterment of water service.

Attorney Crutcher had hinted that Stephen A. D. Clark, chief complainant, had dismantled a small adjunct to the plant. This drew a retort from Clark that stopped just short of the lie direct.

About thirty persons to whom the defendants supply water were present. The testimony was generally that the water service was not perfect, but a number of witnesses asserted they were convinced that service had been bettered since the commission issued its first order.
